Costly Remedy

The Vermont Senate recently passed a bill which provides that when a new highway project cuts off the route cows take to their pastures, the state will build special underpasses for

With today's modern highways, meandering through the countryside as the result of replacing abarp corners by sweeping curves to facilitate the safe flow of traffic at high speeds, some proposal like this was mevitable.

proposal like this was inevitable.

Many of these new highways have divided long-established farms into two portions, while the justificacy towards larger farms, made possible by the use of labor-saving machinery, has resulted in many farmers owning land on both sides of older highways. Thus cattled-recosings have increased in number, or of of telen spapers to the moneral, at content, at content, at the moneral of the mone

Here in Ontario, though, any proposal for the construction of under-passes at government expense is unlikely to find much favor with the already heavily-burdened taxpayers. A little care and caution is a much less expensive sub-

This care and caution, though, needs to be reised by farmers as well as by motorists.

exercised oy farmers as well as by motorsts.

Last weekend we saw a prime example of carelessness by some farmer which might easily have had ersions consequence—which, perhaps, did cause an accident for all we know. On one of the province's better-built and more heavily travelled highways, No. 71, which was the contraction of the province's heavily and the province of the contraction of the

of curres later, simos seasons, of the road.

The thoughtful driver was making caution—armotions with his lett arm. It was only after any motions with his lett arm. It was only after the reason for the delay became evident—a big, fair porker which finally sourted out from irront of his car and wandered off into the

* Hitting that pig at sixty, the legal limit, would have likely cured somebody's bacon besides the porker's.

A Sticky Wicket Indeed

A Sitoxy Wickel influed of the French towards the United Nations' efforts to appraise and investigate the Tunnisan-Stutions is most deplorable. The refusal of the French authorities to eren mere with UN Secritary-General Dag Hammarskjold is a rather blatant display of lack of falls in a political-philosophy to which their country is presumably loyal as well as to a convenience of the presumably loyal as well as to a con-

consume a possucer-promocophy to which their country is presumably loyal as well as to a concept of world seculity and peace through mutual cooperation of the member nations of the UN.

The attitude is one which puts every ally of Prance, and this includes must extend the control of the control of the Cooperation of been stated before in this column the United Na-tions should have its own international police force so that its decisions may be enforced if a nation decides to disregard them contrary to the interests of international justice. No legitalize and judical arrangement can hope to exist effectively without an administra-tive group with sufficient strength to make sure the decisions of the former are implemented

the decisions of the former are implemented promptly and properly.

In the absence of this aspect of government as far as the United Nations is concerned the alltes of the French are forced to bat on a sticky wicket in order to ensure they are on proper ground in the eyes of the rest of the world.

President Kennedy used 18 pens in signing the depressed areas bill. This may not be a record in historic pen-canacious Washington, but it's a pretty impressive feat. It might even suggest a new fad for those collegians who fin-ally tired of crowding into telephone booths. (New York Heads Tybuno).

The time which we have at our disposal every day is elastic; the passions that we feel expand it, those that we inspire contract it; and habit fills up what remains.—Marcel Proust

That sweet look of devotion which men have never been able altogether to love, and which still makes the born saint an object almost of suspicion to his earthly brethren.—Walter Pater,

For Campers

This service applies only the city limits.

The story behind the headlines and the copy in a newspaper is spelled S-E-R-V-I-C-E! This newspaper, and every other paper in the country is a "public service" - it is informative; educational, humanitarian and civic-minded, Dad turns first to the news and editorials; Mom likes fashion stories and recipes; the kids like the comics. There's something for everybody in every phase of everyday life! Fundamentally, your newspaper serves you with information - whether in the news columns, or in the ads! Truly your paper is a "service centre" . . . the meeting place and the marketplace of the community.

The New Communist Program

The New Communist Program
Premier Nikies Khroshchev has drafted a
new program for the Communist Party of the
USSR. This will be presented to the 22nd congross of the party in Cotober. It is almost
certain to be approved.

It has been said that this is only the third
gross of the best said that this is only the third
program of the control of the control of the control
(The first was issued in London in type the
the second at Moscow in 1919, it months atter
Botherik Revolution, according to this count).

This investory requires that we consider the
multifucitions variations in the party line and
the various five-year plans as merely means by
which the 1919 program was implemented. Regrated in this light, the surprise is not that a
liked program should now be issued, but that it

invorung some main Russian effort has been concentrated on building up the machinery of production, particularly the machinery to produce the tools which will supply the equipment mecessary to manufacture consumer goods. In the natural course of events, the day was bound, to arrive when more attention could be devoted "a "astiervine current needs and less to enlarging the country of the countr to arrive when more attention could be devoted to astixying current needs and less to enlarging the base for future production. Even allowing, for the continued maintenance of a buge military establishment, for the ambitious space and rocket programs and for the increased consumption resulting from a heavy increase impopulation, the wooder is that this change in emphasis should have comes so lake rather emphasis should have comes so laker rather.

than so soon.

For this reason, we ought to hesistate before becoming too sceptical about Russia's ability to achieve, (or, what amounts to the same thing in a certain sense, to appear to achieve) the admittedly ambitious goals set forth in the new

admittedly ambitious goals set forth in the new program.

This of suspassing the productive power of the U.S. by 1970 appears to the Western world to be nonzenae, and in any true sense of the terms, protective, power this must be the proper werder concerning this boast. But we are agit to oversion the wart amount of waste, proper verdict concerning this boast. But we are apt to overlook the vast amount of waste, (of manpower, productive capacity and goods), present in our gastern economies and the evotion of a large-proprition of our energies to enterprises whigh, while perhaps not wasteful-niteration of the content of the production of a large-proprition of our energies to encourage may be able to achieve what today appears impossible. By refraining from producing so many of accessories to our modern way of living, the Russians may be able to produce producious amounts of other and more useful types of consumer goods, such as washing machines and radios, beds and books, refrigerators and phonographs. The result, while it may revolutionise the life of the Russian people.

One reaction to the new program which is difficult to understand is the belief, amongst-some commensators in Western countries, that such a mahitious sits of objectives could only be achieved if there is no major war. This proves, so goes the argument, that Knusheher

achieved if there is no major war. This proves, so goes the argument, that Khruschev and other Russian leaders want peace. That, though, ought really to be no surprise. It has long been evident to any thinking man that the chances of civilization as we know it surviving any major nuclear war are virtually nil. It follows that no thinking man wants war. Only those who believe that the Russian lead-Only those who believe that the Russian leadonly those who believe that the Russian leadonly those who believe that the Russian leadonly those who believe that the Russian leadtuclear war can lind any comfort in the
presentation of an economic program which
depends for its achievement on the preservation
of peace—and one would have thought that any
who regard the Russian leaders in this light
would have immediately sensed that, for a nawould read immediately sensed that, for a nawould peace that the read of the contract
trip in the read of the contract
trip in the read of the contract
trip in the read of the contract
trip contract that is that the new program does
nothing whatever to enhance the hopes for
peace, because the danger of war does not consist of a deliberate program to invoke it, but in
the possibility that one side or the other may
varietion to, some program intended merely to
reaction to, some program intended merely to
reaction to, some program intended merely to
reaction to, some program of the contract
the presentation of a program for expansion during two decades of peace does nothing
to remove or mitigate this danger.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor Revival of the ener-papeter senior.""" brend of haday, has mot with the approval of a number of sity and district fam according to letters and telephone

Lorse Cook, OSIA past-president, spewned the id-d-the most of the centres he has contacted are repor-be taking the idea under favorable consideration.

an issuing the lone through provening constant of a character to some kind of a house like the matter to some kind of a house like the kind of the character like the control to discours the present.

Cost galact earlier that Dalleville, Kingston, Barrier, Festerberson, Waller, Tewnise were integrated parties. Since then he has interned that Mennane, home of the information of the interned of the information of the interned that the prepared is never than weren't interested in the prepared circuit.

According to a Kingston report, Cook is said to have sed Cakville to the potential list. Two teams from reputo, the Toronto Maccobrainan and a club managed Greg Currie are strong possibilities.

Fig Curry are noung presentation. There are conflicting reports from Priorparough, to mid a scaler "5" club would be welcomed in the filsect City, playing in the Civic Arons. Another did the fact that there is a painer "A" again shall be not breaked.

Whitby, long the home of senior booksy, any brand you want to name, is said to be on the fence between a senior "B" squad and an entry in the proposed Metro funior "A" league.

You can figure this one out for yourselves. Cook has stated that each club will be allowed an "anim-led number of imports." The residence rule will be waived, he is quoted as mying.

Coffic is one of the greetest workers for amateur hockey in the province. It was his first love and he has never deserted it. "I have faith in it," he says, "especially for the over-age groups. The boys need a place to play when junior drys are over."

ace to play when justice cityl are over."

I do not go rabog with the "Unified number of imports" ides. If the new learns is to start from serecial-tel it is best ver. I believe this city has a puttern of veterans and a miffeient number of players who could make a fairly stress or players who could make a fairly stress a channe in show the could make a fairly stress a channe in show the property of the country of the count

Several fass here have said they would like a return the "good old senior B" days," when they ran rail-il specials to Kingston to take on their bitter rivals a Mike Redden's balliwick.

We jest light on too. And Mayor Jack Both, like the good mover he was, he a lovel Pobble deps the main thereughtare of Kingsion, while the Lieuceiana chigi magaintae straddied the utdile of a local pland-grati-prod.

A Plea for a Conservative Left

A Pies for a Conservative Left
It would be almost impossible to over
estimate the significance of the address of Mr.
Claude Jodon, prepleme of the Canadian Labor
Congress, at the founding convention of the New
York of the Conservation of the New
York of the Conservation of the New
York of the Conservation of the New
York of the New

the has toward the left.

This augurs well for a semblance of unity amongst the diverse elements out of which the party is being accessibled. To all intents and the party is being accessible of the left product force is primarily a movement active political force is primarily a movement active political force is primarily a movement active political force is primarily a movement for a seminary miles removed from doctrinairs socialism. The third main component, besides the CLC and the CCP, is represented by the recently-organized New Party clubs. Their representative, Leo McIssac of Charlotekown, P.E.I., left no doubt of their basic philosophy when he vigorously opposed any "unnecessary" government controls or centralization of economic power.

It may be feetilumately around that a simil-

It may be legitimately argued that a simil-arity of outlooks, such as is here evidenced, does not mean an identical outlook, and that mere not mean an incurrence outdoor, and that are similarity of views is not enough to provide a firm base on which to build a successful poli-tical party. It is still questionable whether all factions will be able to pull together, but at least this remains a question and has not been answered in the negative before the party is even officially born.

One point remains; one cannot help won-One point remains; one cannot help won-dering whether the convinced socialists, in large measure a comparatively small group of intel-lectuals, who have kept the CCP party breathing in the industrial East through long, item years will be able to find a happy home within the New Party. Those same years have proven so prosperus for conganised laker that it has christosty led most of any year radicalism which the party will create the companion of the party and Party will creately a set of the provided that the once existed within its ranks and while the New Party will certainly settle down to travel a path left of centre it will be so close to the centre line that one wonders when any Liberal Party with a valid claim to liberalism is going to find driving room.

First Step Towards Union?

It is retainer amazing that, and all the welter of opinions regarding the effort by Britain to join the Common Market, practically no voice has been raised regarding the political, as distinguished from the economic, consequences. Yet, in the long run, these may easily prov the more sweeping.

the more sweeping."

While the European Economic Community, or Common Market, is today concerned solely with economic integration, it is no secret that many of its strongest advocates regard it as the fore-runner of political union. "Even those who today would shy away from any such suggestion might well be converted if it is shown, by events, that six or more independent nations can weld themselves into a single economic unit. The success of the Common Market would almost certainly result in steps for political union, for the formation of a United States of Western

Burope.

— Flexible in the extreme though the Commonwealth may be, it is difficult to suggest how Britain could remain a member in the event that she was merely a member state of the United States of Surope, and there is little or hor real prospect that such a United States of on oreal prospect that such a United States of Commonwealth without radically changing, beyond all recognition, the nature of that grouping of nations.

Journal of the British people helieved that their entry into the Common Market would be the death knell of the Common wants, there is little doubt but that they would reject the move. That, though, does not necessarily mean that Common Market membership for British is undestrable, in her own interests or in the interests of the world at large. Bonns reto would seem inertiable, and that repropring may well transform the present Commonwealth in any event. The emergence of a United Starope would be a momentous development, it is nossible that this may be accompanied by in any event. The emergence of a United States of Europe would be a momentous development. It is possible that this may be accompanied by similar unions of states in other parts of the world, in Africa, Asia and South America, revolutionizing the present political oragination of the world. This would appear to be the next logical step towards as syrentized world grower man, a Utopian dream which may yet prove to be an absolute necessity if managined is to live an anisotize necessity if managined is to live an anisotize the secondary if managined in the secondary in anisotized in the secondary in managined to the secondary in managine and the secondary in managined to the secondary in managine and the secondary in the secondary in managine and the secondary in managine and the secondary in the secondar

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

The question on the ligh of those who appeared to give laber's dam was "Who is McNesly?" Somehody has plotd the answer. The 24-year-old unknown got him-it's press agent, the deadty of all press agents, and the first press agent, the deadty of all press agents, and the data of the state of the state of the state of the state all reads—shoot look like a five-cent finements. Mr. McNesly Tr., he sary, is a prientificitie with 13

McNeely sat in the plush office of his manager from th Fuller runs one of the largest Cadillac-Oldsmobile cies in the country and directs his Florida land effect-ent projects and a 85-bore racing establishment. The some of the fight was no less clear to the blond strap-

Fuller, the son of a former Massachusetts governor is He is an ex-dighter and still looks like the scrapper o won 80 of his 55 smateur fights, 30 by knockouts. ere is in this kid," he says, "a cruel cruelty, ectant. I know, I've got it in me and he in lithout it a men cannot finish a fighter off."

McNealy's apoless record includes 18 knockoul? He met none of the heavyweight contenders. "Perhaps n hasn't met these so-called top heavies," says Fuller, it we've westhed them cloudly. He has met them in mind and in his mind and he has besten them."

Once, in a prudee first, apthis Charlie Indiset."

Once, in a prudee first, apthis Charlie Lapse,
McNeelr hit his rival when he was on one kne and
then tirted to she tim befores (First Bolk Builder, Bowwey). Whell'righting Lee Jenes, McNeelry butted first
colonial, He was warned by commissions and side is
no a purphishries. He says he get nothing out of the
section.

"But, I think," he says, "the psychiatrist convinced no I abould fight by the rules. Now I fight with con-relied fury. But I'm no Little Lord Fauntlercy."

Boxing is a primitive business," he says. Why pre-d: "I'm in there to win and use any means to do it."

What if he should less his head against Patierson? Nearly threw heak his head and queted, "He either ure his faic tee much or his deserts are small, that we not put it to the test, to gain or less it all."

Accounts committee deserves careful study. It contains numerize findings and recommendations all of which Parliament, at the earliest opportunity, should be prompt to implement.

One of the committee's proposals is that the Usemployment Insurance-Commission should be required to prepare annual financial statements clearly indicating the revenues and distursements of the Unemployment Insurance Fund, and that such statements hould be subject and that such statements should be subject. to the most careful audit by the Auditor Gen-eral of Canada. It cannot fall to come as a surprise to most Canadians that such financial

surprise to most Canadians that such financial statements and sulfuls are not already required. Adjoiner finding of the Public Accounts committee relates to the Polymer Corporation, the Crown-owned synthetic rubber monopoly, whose management incently decided to establish a plant in France to sustain sales to the Common Market countries of Western Europe. While the committee does not question the soundness the committee does not question the soundness of Polymer management's decision to establish a plant abroad, it does, and tightly so, question that the fact that the faffars of Polymer's European subsidiary will be subject only to financial review by a firm of French auditors. The committee accordingly recommende that this responsibility either be immafered to the Auditor-General of Canada, or that, alternatively, the letter energe is a joint audit with the French letter energe in a joint audit with the French letter energe and thoroughness of the work of the Oliflects and thoroughness of the work of the Public Accounts committee.

It is fortunate that cars are better today than ever. If many broke down traffic snaris

WO 8-8256

FAR-NORTH PILOT.—Jim Cleary at 61 faces forced retirement after 30 years as a pilot on Bear River, a tributory of the Machennia Now the oldest pilot on the waterway, Jim has piloted barges, paddlewheelers and diesel tugs. He'd like to stay at the job, but closure of a unanhou mine at Port Radium, N.W.T., threatens to reduce river traffic to a fraction of its recent level. (CP Photo).

Jim Cleary, Indian Pilot, First Traced Out Channel Of Bear River by Canoe

By BRUCE LEVETT

FORT NORMAN, N.W.T. Ellis children went to school at CP-lim (Carry, who fought lauvik, N.W.T., and his young the Bear River branded for wife — she's only 34 now-more than 80 years, is losing bis stayed home in Fort Franklin At the is the oldest pilot on more about the first that the six of the six who will water that drains Great bot, steel decks of the river the wild water that drains Great bot, steel decks of the river

Art to go is the consent paid to improve the wild water that drains Great hot. Steel decks bear Lake into the Machende craft. River 73 miles south of the Arctic Circle, but this will be year Jim shipped, his last summer on the river.

mine closed down at Port Radium, N.W.T., liver freight has fellen off and the boats are being withdrawa.

to a Blast Three by cancel in the Blast Blast the lines and itse broad to be a second with the blast B

lin."
The barges he worked carried priests and fur traders, dog teams, mounted police and others.

The men on the ropes pulsed the lines from shore, stamping along riverable lowpaths. When they ran ôct-of-pathway on one said of the river, or where the water on that side was to said of the river, or where the water on that side was to said of the river, or where the water on that side was to be said of the river, or some places where there was no other way to do it they pulled on the lines up to their ampais in the fast, cold water.

panied on the lines up to their armpits in the fast, cold water "The first big boats began coming in about 1932 or 1933, went as a pilot with the Hud son's Bay Company. Then this company came in."

rn Transportation Limited, Crown outfit, and one of fim' proudest possessions is a smal gold 20-year-old badgo he wear like an insignia on his, Cartro type cap.

For years, Jim had the river licked. He guided the paddicwheelers which pushed the shallow-draft scows up and down the river. Occasionally he took a turn at the wheel. When he sternwheelers g a ve out he moved over so the smaller but heefter diesel tugs.

He preferred the peddle boat.

"they were good for shallow water and better in a high wind."

"Four lived and four died."

Then his first wife died and

Woodworkers Ask CLC Oust Carpenters

OTTAWA (CP) — The Intertional Woodworkers of Amera (CLC) has demanded that e Canadian Labor Congress upend one of the CLC's bigset artillates, the 63,000-mempro United Rotherbood of Car-

The IWA has charged before the CLC that the carpenterunion is breaking Congress poliicy and is raiding the IWA
jurisdiction among Newfoundland loggers. The IWA has 26.000 Canadian members.

Claude Jodola, president of
the 1150,000-member Congress,
confirmed Thursday that the

ceived.

He said it would be processed according to the CLC constitunation of the CLC constitution. The control of the two control of two

CLC last year.

The IWA move brings the stormy Newfoundland labor situation to a head, presenting the CLC with a major crisis that could have far-reaching implications for labor solidarity.

The carpenters' union is one

within the CLC.
Andrew V. Cooper, of Toronto
too official of the union in Canada, is one of the 13 regional
vice - presidents of the CLC,
along with Joseph Morris, westcm Canadian head of the IWA.
Both sit on the CLC executive council, which will eventually face the decision on the
IWA compalair.

In a move to keep peace among unions in Newfoundland, the Congress recently proposed a peace plan that called on both rivals to support an independent, strictly - supervised vote among Newfoundland loggers.

gers.
The IWA agreed. But the car
penters balked.
The carpenters went ahea
with their own ballot, claimin
that 2,173 of 4,041 loggers ha
voted to join it rather than th

Mr. Ladd charged Thursday that the vote was "obviously rigged."

The IWA led Newfoundland loggers into a bitter strike two

Your newspaper is YOUR SHOPPING GUIDE

In newspapers the news of better products and services is as important to today's modern family as that of current events or features, concerning home and family, food and fashion, hobbies and health.

For newspapers are the medium by which most people shop. No other medium supplies the variety and detail of advertising by which, one may compare prices and benefits and choose the comforts and conveniences that make for a full living standard. There's much significance in this for local advertisers. For only in the newspaper can people of all-see and income groups find the information and inspiration so necessary for good citizenship and fon the enjoyment of a better way of life.

And because newspapers gain their friendship and regular readership, newspaper advertisers are provided the most productive medium of communication with customers.

Severe Shortage of Meat Including Chicken, Eggs And Fish Seen in Cuba

Cuba Protests to UN Body Claiming Hijacking of Plane By Father and Son Frame-up

Sport Slices ...

RARE, MEDIUM, WELL-DONE By Guo: H. Canvan, Sports Editor

As for the Ole Limberswier Carver, he sticks to his artier prediction that "Miss Supertest III" will taste the rine of victory after the second race here Monday ev-

Last year the plan-nighty voteran of the speed-board restructive Ger Weeds, known to the trade as the board restructive Ger Weeds, known to the trade as the first of the German Country of the Country of the sent criticagens." This was it. Silver-habred Weed whe was not beyond challengering in his driving har-day, shock his head, get up and went home. "Two sees it all," he mid.

Youthful Sam Dupont, after the defect of his als said, "we'll never regain the Harmsworth until are powered with Rolls-Reyre engines." For uninferenced, Harmsworth books must be physicol, the oughness manufactured in their country.

This Tuste of the Thompsons, I believe, will be a severe test of not only power but engine and hull stamma and driver ability on the near-haliplin turns. Remember this is a three-mile course with straightaways of one and one-quarter miles, not three like last year.

Welcome All!

Welcome All!
Seldom, if ever, has Belleville played host so many distinguished visitors as it will do is weekend.
First there are the lawn bowlers who will capete in the Corbin Cup competition, an anale feature of Civic Holiday here. To these distances, welcome, and excuse us if we hurry was to nevert other conservaet other guests.

Already here are the yachtsmen from Can-ada and from our good neighbor to the south who will participate in the annual Lake Yacht Racing Association regetta in Big Bay. This is the first time the regatta has been held here since 1923. Welcome back—you have stayed y too long.

swey too long.

We have a third set of vidiors who have a completely different field of interest. They are the members of the Sovereign Great Priory, Canada, holding their 78th annual assembly in this city. Welcome, too, and may your meetings be as lively as the winds we wish for the yachtenen, yet as smooth as the greens we are sure are awaiting our bowling friends.

The state of the second that the proportional to quite, for we must not must be opportunity of joining our Prince Edward County friends in welcoming powerboat enthusiasts to the Harmsworth Races, being held in the Long Reach for the second successive year.

the second successive year.

Welcome, all.

A Great Premier

A Great Promier

Premier Leile Froet has announced his retirement as leader of the Ontario Progressive Conservative Party. He has not retired as Premier of the Province, nor, under our constitution, is there anything requiring limit no do so, even after the party selects a new leader. However, the very reason for his timing of his resignation as party leader, "the party interests, and second-should not long remain Premier once his successor as party chieftain has been chosen. It follows that Ontario will have a new premier, if not before the end of this year certainly early in 1982. Premier Frost has been at the helm in this

Premier Frost his been at the helm it this province since May 4, 1984, a premierabile of a length enceded by only one other occupant. It is a measure of the statuse of the man that his pending retirement will find many Ontatio etitisens wondering that his rule about have been so short, little money than a decade man bear been so short, little money than a decade. His man has been so short, little money than a decade. His man has been seen approxymous with Octation's progress in the post-way years, so that the nick-man "Mr. Ontario," fast from having about it say touch of flamboughery, has appeared no more than a natural recognition of a self-redder fact. Premier Frost, in his letter of resignation to E.D. Bell; president of the Ontaro Progressive Conservative Association, has made mention of the fact that he first samued a chainet goal stay years before becoming premier, so that his influence in the government has extended for sincellation that could not be utilized to be usefur a status of the could not be utilized to be usefur a same and the could not be utilized to the under a same that he are could not be utilized to the under a same of the progression of the order assumed that a could not be utilized to be usefur a same of the progression of the country of the unifer a same of the progression of the country of the unifer a same of the progression of the

ence in the government has exterited for almost's reo decades. The truth is, though, that his talecute could not be utilized to the utmost until he became chief minister and when he first assumed that office there were few Cotarlo clissen who would have forceast for hist, the eminence in the province's history which he would have forceast for hist, the eminence in the province's history which he was the history which he had been a first of the criticisms levied against Mr. Frost, and ohe of the crosses which his successor will have to bear, has been that more and more, as the years passed, his government has been a one-man government, with he having the final word in the determination of any policy. This assessment is made in the manner in which he was served by some them to the members of the Legislature whom her attack to Cabinet rank. While yielding bothing to anybody in loyalty to his co-workers, Mr. Frost, was even add of Mr. Frost was always able to fin his provernment of match his own.

It has been add of Mr. Frost by his collides match his own.

match his own.

It has been said of Mr. Frost by his political foes that his political beliefs are behind the times, that, though the province has grown in population and wealth and expanded its physical plant during his regime the government. population and wealth and expanded his physical plant during his regime the government did not keep pace with the times in social legislation. Nothing could be a greater mistarceration of Mr. Froat's attitudes, and talents. While never a voice in the widerness crying for change, also unrivailed sense of timing periodically produced reforms prefetcly at the time when the people were ready for which we have been a supported to the property of the same when the people were ready for the produced with the people were ready for the produced of the produced the produced of the produced the

Verwoord Calls Election

Premier Hendrik Verwoerd of South Africa has called a general election. Of course, this is an election "for whites only." Negroes have no vote. "Coloreds," those of mixed blood, have

no vote. "Coloreda," those of mixed blood, have representation in Parliament, but these repre-sentatives must be white.

Sir de Villiars (max.), leader of the opposi-tion United Party, says the early election indi-cates the governmont expects difficulties which will make it, harder to winy an election two years' broost.

Be that as it may, an election at this time

Be that as it may, an election at this time would appear in the tradition of the parliamentary system, providing the voters with an opportunity to write their approval or disapproval or the sweeping contributional changes which the state of the sweeping contribution of the Stiffath Commonwealth.

The Nationalist Government's record, though, rdly suggests that it has any great respect for e parliamentary process. If any new proof the parliamentary process. If any new proof of this were needed, surely it is provided by the appointment of Johannes Vorster, a war-time Nazi sympathizer, as Minister of Justice, of all

things.
It would be comforting to be able to predict that the Nationalitat might taste defeat at the police, owing to the increasing recial tension. Actually, increased support from the voters is a more likely result. The whites are riding the tiger and have no desire for a government which might require them to dismount, or even to drag their feet a little. The majority of the white population supports apartheid in principle, if not in all details.

Even if the reverse were true. Verseowle

Even if the reverse were true, Verwoerd would probably win easily. His strongholds are the rural areas, and the seats are so distributed to give even greater weight to the rural vote than here in Canada, where rural ridings sometimes have as little as a fifth of the voters sometimes have as little as a fifth of the voters of some of the bigger urban ridings. Add to this the fact that the opposition full ride fact has the opposition full ride fact has favors some form of racial segregation and it is obvious that the South African Negro has no hope for betterment of his lot through the fact of the f of some kind, violent of non-violent. His primi-litive background makes it unlikely that he will display sufficient self-disciplins to duplicate the civil disobedience tactics of Gandhi's Indians. The future looks bloody—and with a Nasi as Minister of Justice the treatment of the rebel is not likely to be merciful.

Shock-Proof

Sydney J. Harris, whose column appears on this page, suggested the other day that we have lout the capacity to be shocked by guidt except sexual promisently.

He's right.

What shocked you leat?

If you have been reading the newspapers at all, you shouldn't have to go back to the days of Release and Dauchest.

all, you shouldn't have to go back to the days of Belsen and Dauchau.

Ferhaes you would reply the rape'of Belgian women after the Congo became independent. But that is comparatively old news and mild compared with recent happenings in Angola. There have been to plant years of the country o

bornis.

Other villagas have been complied by troops.

Exceptions have followed. There has been soon selection of victims at first. Those chosen have been the literate. Laker others have been the literate. Laker others have been chaged, and shot at random.

All, this has been done not by primitive matree, but socialed Christian whites, at the order of the government of one of the longest-civilized European countries, Portugal.

The countries of the country of the countries, the countries of the countries, protugal.

The countries of the countri

The mere announcement that some of the na-tives had revolved against while rule and brutally killed some while people has been taken as valid grounds for trained krops and while adultan-able halchering the natives indiscriminately. or, where discrimination has been shown, or the hain of the fact that the violene were literate, therefore intelligent, thorefore potential leaders of their rock, ligarity or designous.

We must not doom ourselves to equating all change with defeat or retreat. Ordered change is the key is rational aurvival...U. B. Sen. Mike Mansfield, defending his plan to make Berlin a free city.

In Canada

Skim the froth off Liberal and Socialist criticism of the coverment and there is little left in the way of substance to nourish the argument that Canada is going to the dags, in order to appreciate how for-tunate we are in this country we have only to look at Bri-tain's new austerity meanup-

over unemployment in Cas-da?
Cutadilant den't know the nessings of austerity, Even in comment of the control of the some contumer goods were ra-tioned, the Canadian people never feet the pinch of auster-niance the war never drained ha pay servelopes of the workers. The expected popu-tive; we had a post-war boom instead,

instead.

Politicans who cry the blues and people who gramble over a mail sales tax would da well to compare themselves with Britain where wartine and post-war austerity pinches and the properties of the post-war austerity pinches are the properties of the propert

Douglas Demonstrates

Seidom, if ever, can the newly-selected
leader of any political party have given a convincing demonstration of his special talents omer than Tommy Douglas, head of the New

mocratic Party. When the ballots were counted and he was declared elected Thursday evening, the party had hanging over it a first-class potential schism, in the question of whether to advocate

Canada's continued membership in NATO. The CCF, out of whose ashes the New Democratic Party has risen, had favored Canada leaving NATO. The Canadian Labor Congress leaders wanted film support of NATO clearly leaders wanted fifm support of NATO clearly piedged. Debate had been so sharp, and the division of the opposing forces so apparently even, that on Thursday a decision had been postponed until the next day. Thursday evening Douglaw was decision leaded leader of the party of the

There can be little doubt that Mr. Douglas turned this trick, though he got aid from M. J. Coldwell, former leader of the CCF, and Hugh Gaitskell, leader of the British Labor Party.

Gatzean, leader of the British Labor Party.

Just an example of a party closing ranks behind its chosen chief, of bowing to his withes, some may say. In reaching this conclusion, they will miss the genus of Douglas, for this lay not so much in what he accomplished as in the manner of this accomplishment—and eren more so in the fact so many people will never realize there was anything extraordinary about

Doulglas wielded no big stick. Can NATO Doulglas wielded no hig stick. Can NATO
be used to work for a new system of collective
security, he asked the convention. He contended Canada has not tried to achieve this. It
NATO rejected Canada's ideas, then Canada

NATO rejected Canada's ideas, then Canada could get out.

So the party is on record of endorsing by a wide majority Canada's continued memberahip in NATO and this will be all that will be remembered by mose, a situation which completely satisfies the trade unlonist right wing, which pellews, probably circrety, that he great majority- of Canadians favor continued membership.

bearing. The the left/wing, far from being disgrunt-bearing. The the left/wing, far from being disgrunt-led, reats happin, too, assured by Douglas that continued membership will not represent tagging along behind the big powers, but is to be used to promote Canada's views, with abandonment-or RATO always possible if these are too bluntly

Farkinson's Law Again

The costs of disarmament, it seems, can look "good" to usefully make the costs of disarmament, it seems, can mount aimost as quickly as can defence costs.

More than a hink that this is so comes from Washington, where President Kennedy has asked Congress to vote funds for the establishment of a "Disarmament Agency". The propeed of the costs of

own buildings, and spend money on a wide variety of understainings.

No one on Parliament Bill at Ottawa hai yet come up with the idea of a disarmanent build be used to be a good idea to wait and see what the South Disno plans an olong, if anything, about reducing its armed might. The properative of government bursaucracler to expand, it seems, is just as common when it comes to disarmament as it is in defense.

If I were founding a university I would found first a smoking room; then when I had a little more money in hand I would found a formitory; then after that, or more probably with it, a decent reading room and a library After that, if I still had more money that I couldn't use, I would hire a professor and get some textbooks—Stéphen Leacock:

In London, Charles Creed, the cepturies, has come up with the most candid dedication of the year in his book. Maid to Measure. It reads: "This book is declated to my friend, Elspeth Grant, who wrote it for me."—Variety.

Alberta Battles Rats

Public works crews were at the scene within hours with buildozers and trucks. City council called a special meet-ing, gave sweeping-powers to the pest control officer, ordered a swift clean-up of all potential

Strictly Personal

We Package People

There is an ancient wheene about the old man who died suddenly while on his winter vacation. The body was shipped back home, and two of his friends marched past the open casket before the funeral ser-

Florida."

There is a moral in this wry jest, if you dig a little for it. The world judges us by the way we look, not by the way we feel, or by the way we really are. A corpse with a sun tan looks "good" to us.

RARE, MEDIUM, WELL-DONE

By GEO. H. CANVER, Sports Editor

It could be different next year.

Bob Finlayson, executive director of the Canadiar sting Federation, told the press crow at the Long Resolution and the three could be now frees, new boats and new times at the 1952 edition of the Harmsworth Races.

The Federation in a move to broaden unlimits power best racing, has approached British authoriti-for a future change in the rules governing the Worl Championship obastic.

Finlayson said that interest in unlimited power cing is dying out outside Canada and the United St forts to get an entry from I'aly this year met with

The issue came up last year here, previous to Super-test poing out to detest "Gale V" and the "Nitrogens" in defence of the title ash wo in In-Provint in 1993. There was talk in the plut by some American, present and ma-rows that in the plut by some American, prevent and ma-while they were unable to use the Paphard-Marlin, pro-ninced in the United States, but another Rolls Royce product.

roduct.

However, Chuck Thompson thought perhaps the next American step would be the building of an aluminum boat weighing seems 7,000 plus pounds which could house two Allison motors. This he thought would be hard to beat.

But Finlarson had an answer for that one. He said such a proposition would be good for the sport. "And we would hope that Canada or someone in this country would built a hull to take two Griffens."

If the Harmsworth ever developed into such heats as those staged by the "C" Outboard bumble bees last Monday than Frince Edward's famous Long Reach bluffs wouldn't begin to hold the crowd. If you can Imagine into or six Supersets riding along at 100 miles an bour with a length separating them—well you imagine it, I cannot. But there's so harm in dreaming.

Too Easy

Canada's Miss Supertest III retained the famous Harmsworth International Trophy over Civit Holiday—but there was little glory in the winning. The Canadian champion practically comped home after mechanical trouble wiped out any chance the American challenger, Miss De-irott, had.

any chance the American challenger, Miss De-troit, had.

The overpowering superiority of the engine of Superiority of the engine of Superiority of the engine of Superiority of the engine from the time the boats gunned their motors. From the time the boats gunned their motors, the contract of the engine of the engine of the Harmworth representative in Canada, feat that rational interest in the race will dwindle if amething is not done to equalize the power of the contesting boats.

With this in mind they are going to attempt to broaden unlimited hydroplane racing by asking for a change in the rules that will give competing national the chance to use power-competing national the chance to use power-competing national the chance to use power-ty of the competition is the life of any sport. The seed of winning is partially climinated if the race is won going away, so to speak. There was little competition in this year's Harmworth and not much more in 1980. While Canada has a boat powered by the tre-mendous drive of her Rolls Royce Griffon, and until rule changes are made, there is little chance of any competitor taking the trophy away from However, the Thompson owners and driver

However, the Thompson owners and anver Bob Hayward are to be commended on a fine exhibition, even if the victory was slightly hol-low. They took no chances and had their cham-pion in splendid fettle. Miss Supertest III is a credit to them and to Canada. We are proud

How Much Does a Tourist Spend?

The American Automobile Association says that a man and wife on a motor vacation spe an average of \$36 per day. On a trip in which 300 miles are covered daily it breaks down this \$36 total as follows: car (gas, cil, etc.) \$6; accommodation \$9; meals \$10; tips \$1.50; highway tolks \$2; incidental purchases including sow-

The figure of 30 a day for our expenses seems rather high, particularly when allowance is to made for the lower cost of gasoline in the U.S. N als at \$10, on the other hand, hardly indicate that full advantage is being taken of opportunities for gastrenomic adventures and action certainly little could be spared from this total ing. certainly item count be spaced room institution of for coffee breaks any midnight snacks. Accommodation at \$0 appears to indicate a steady length of motels, with no recognition of the fact when the country is the control of the fact when the country is the country in the country in the country is the country in the coun that equal or superior accommodation can often be obtained at hotels at considerably lower cost. Incidentals at \$4.50 may seem high but, on reflection, will almost certainly and up by being regarded as extraordinarily low, if the touring couple do anything except drive and sight-see.

But all this is quibbling. What the AAA is presenting here is an average. The break-down for individual tourists will differ widely -but the total is hardly likely to vary as much. What the individual tourist saves on the coconut shy he will spend on the round-about. nut say he will spend on the round-about. Total expenditure will not fall much short of the \$36 indicated, though there will be an immediate saving of \$2 a day in Canada because we do not have toil highways.

we do not nave tou inginways.

All of this shows why a district which can attract tourists can reap such a rich harvest in such a comparatively short time. Catering to tourists may not be a steady job, like the production of goods in factories, but it provides a very acceptable summertime bonus to the economy of any area which is fortunate enough to be able to combine it with year-round en-

YULE NOTE

Russia Cuts Aid to China

Rremin's plans. Obviously, Mao Tretung can soften the tone of his split from the Soviet' "pascratel coexistence" line—and bide his time.

But were if Peking does so and perhaps regustrates the flow of Soviet aid. China could doubtless use other sources for

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CABVER, Sports Editor

Believille going to join the Eastern Professional League ranks mixt season, 1963-63, that is, or a bressee that are waiting this way blowing lowes?

Mayor H. J. McFarland of Picton who was re y as saying he is forming a company to build a at arena here did not deny the story nor did he

He said he would appears a senior and a junior club i winker but he dell not go all out on anything de-he that he would entertain an Eastern Pro Lega-e, although this new arens" project has a professional

Not that he will let the junior clubs down. Under Hawks segis I believe he will sponsor junior "B' so out of this city and Picton, too.

But pro hockey as it is being played today and the regime of senior hockey as it will be played, are two ses of a different color. Let's say for comparison son, a Miss Supertest and a Miss Detroit. And that merely comparing the two from a speed and financial

Therefore, il seems quile simple that 'the pro-posed new areas and the pre interests go bind-in-land. Simple of the present of the present state of the present of the present of the pre-servant. Il did in the side tary and one de se again. New sings oftense Lamary Learninade who says to will couch and organize a seeder club here under the sugmenting of the Bain these Company. Learning was he has the green little from Leres Cole and will sid-tense the present that the company. Learning was

All Ready for the Moon
There ought, to be nobody, of whatever
nationality, who was not thrilled by Major
therman Titor's hastory-making day in space.
He experience has the state of the more
than the second of the more state of the more
to Gagaritie solviewment absend of the mare
pooles risk of Commander Shephard, the astrotothe of the Titory of the stronger of aut of the U.S.

It was not so much the number of trips around the earth, seventeen compared with Gagazin's one, in which Titoy's flight surpassed Gagazin's up in the desired trips. arin's as in its duration.

Gagarin's safe return proved that man could withstand weightlessness—proved that what theory held to be true was, indeed, true

mpractice.

But what would be the effect of this weightlessness if long continued? Once again, theory said that man could endure it; Titov proved that once again the theoreticians were

Some importance has been placed on the fact that the distance Titor travelled, 434,960 miles, is approximately the same as that of a title from the earth to the moon and back.

ride from the earth to the moon and once.

Mere mileage, though, is hardly the important yardstick. Titor's Vostok II was firmly in the grip of the earth's gravitational field, which kept it circling lightly around this globe, and because it was so close to the earth, travelling at a tremendous speed.

at a tremendous speed.

Any journey to the moon will take longer, because the space vehicle will travel at a much siewer speed. In London, Rapiand, though, Kanneth Geltland, the vice-president of the British Interplantary Society, any task what made Titor's flight: so interesting was "that Yooto! II jade enough air and good provisions in it for a round-the-moon recommandance flight in the president of the speed of the president of the president

in it for a round-the-moon reconstanance flight which would hast for about five to eight days.
If this is true, then all the conditions for a moon critise seem to have been successfully met. The Russians had already proven, with a manifest which, their ability to seen day which is the moon, or around it. Galtand says Vertek II carried sufficient air and providous to support a man on such a ground, if it did not positively prove they shaw could survive a trip to the moon, gave every reason to believe he could. The stage hab been set for man's first real Johney into space.

The Limited War Theory

Dr. Henry A. Kissinger of Harvard Univer-ity, addressing the Canadian Institute on Public sity, addressing the Canadian answers to Affairs, urged the free-world to increase its conventional forces "to defer as long as possible the lacessity for use of nuclear arms."

These been voiced

This is not a new plea. It has been voiced before-by many, including some Canadian mill-

While it may have considerable merit insowhile it may have considerable ment inso-far as handling so-called "brush-fire" wars in places of relatively little strategic importance, its fallacy in any application to the Berlin crisis is not difficult to realize.

is not uniquit to reasse.

In the first place, of what use is such a strategy if it merely postpoles, rabber than prevents, the use of nuclear wespons? Once a war starts, all the leaching of history is that it plecomes increasingly difficult to stop as time passes, unless one or the other side gains a clear-cut assendancy. If this ascendancy is to be merely the signal for a resort to nuclear be merely the signal for a resort to nuclear weapons, it follows that the only way their use isan be avoided is to avoid, the commencement one is the started. The argument may be advanced that there have been several instances -of-late where wars have no.)-been pushed to the logical conclusion of the defeat of one or 'the other side-kroses, Indo-China and Laos providing examples. But in all these instances "directly involved in the conflict." there has been at least one major power not directly involved in the conflict.

directly involved in the conflict.

So much for the value of mere postponement—it is virtually nill. There arises, however, the question of whether even this valueless postponement is possible. May not an increase in conventional forces, which tends to delay the use of nuclear weapons by one side, at the same time tend to hasign the resort to such weapons by the other side?

The idea of a limited war involving the major powers is almost certainly a comforting fiction—and this is not the kind of a world in which a belief in fairy tales is compatible longevity.

Let's not be too quick to blame the human race for everything. A great many species of animals became extinct, before man ever appeared on earth.—Will Cuppy.

since."

The New Party is rich, shiny and competent and in it the veterans of the CCF may benefit from the firmness and decision of the experienced trade union disciplinarians.

Pans Defend RCAF Planes

eacs. If we were out of frying pans would we be into the fire? This kitchen defence like the titchen debate with Khrush-chew which seemed to do much for Mr. Richard Nixon, sug-gests that the growing com-plexity of orthodox methods of defence and diplomacy has given simple novelty a new effectiveness.

By Doris Clark dian Social Worker Helps with Hu Are Gangs All Bad?

DEAR DORSE-Are all teen-age ngs a threat to the beating development the boys who are members! My son 14 is knocking around with a group of a boys. They falk tough have a passorid and secrets between them. They end hours at pivate meetings. As far I can see, the only serious sectivity F have at the moment is collecting mps. Should I try to pry?—DAD.

pp. Should I try to gry!—DAD.

DEAR DAD—Buddes are basic
at fouriers. Your boy-and flours—
and or others limb—in-take this way of acquiring a needed of our great the in-market this way of acquiring a needed of our great the in-market this problem. These of the problem is not a second to the companies of the problem in the in-pulse, to be noisy. Where can be escape from his fed-erar: With his own kind. While he is gill as webby-lick, his peers help to continue the freshe knees.

Gleggs are groups of people basiced teagether and of stables parants, your team-appr can have fur with the good.

(Doris Clark, Master of Social Work, is a aduate of McGill, Toronto and McMaster uni-ratities, and has had broad experience in social ork. If you would like help with your prob-ns, write to her in care of this newspaper, closing a self-addressed stamped envelope.)

Why is this tire different from all other brands?

This Is the Goodyear Custom Super-Cushion—the tire selected by most manufacturers for their

by most manufactures for tour new care.
Why do we know it's different from all other brands in the same prior range? Look at these facts.
Improved safety tread design puts more gripping power on the road. Precision built with the latest electronic equipment, for greater road stability ... longer, again

wear . . made with Goodyear's exclusive 3-T cord for superior body strength. Result. Big Performance Difference. Road tests proved Goodyear's more milesgs than competitive brands.

Think about this big difference when choosing new tires. Goodyear tires offer better value than any other time.

We have Goodyear Tires as low as \$13.95 without trails

RARE, MEDIUM, WELL-DONE

A few days are before Eleker Mantle and Rogre-Maris brake out line home-run rankes, I expressed the wish or the opinion that neither would break the record of Babe Ruth.

Since that time there has been a marked coolness on a part of my Yankee-loving friends who insist I am ady and fit for the guys in the white costs—and am tural squirrel food.

sturis squired food.

Okay, steap on the white-lockets and the squirels. I am pring to trappe the original sistement rate. I am pring to trappe the original sistement analyses so the Statilian mark. The same statement of the Statilian mark. The Statilian continued the same statement of the same statement of

For a while it looked like Roger Maris would be the here. But they failed to rectem with the ambi-dexirous clotting of one Mickey Manule. He needed 19 last Sunday and after his first two times at bat, the boys in the back room rigured that he might create a new mark within a week or two.

The Mick clouded successive homers to boost his total to 42. He got tired of blasting file easy once, so before the afternoon finished he rapped his 42rd, this one hadde the park.

Replember ratios around in the includes year of the commissioner, not the other day Ford Frick, the baseball commissioner, ed that any player breaking Ruth's mark must do it within 164 games, eight less than the schedule cells for a season. There was plently to do about it in baseball cles, so to back up his ruling Frick celled for a vote baseball writers. They upheld him 2-1.

Up to last night the Yankees had played 111 non. That means Mickey has 44 games to go to tie break Enth's mark under the 154 ruling and 55 non under the achodule set-up.

And in fairness to his it must be said that playing conditions, bells, etc., are vastly different today that her were in the heleyon sports days of the Twenties they do not conform to those of that era.

Horses Killed In Workout

DENVER (AP) — Two race horses, one an English import said to be valued at 330,000, were killed in a collision during a workout at Centennial Track Thurnday.

nursday.

They were Mahrud, an unaced three-year-old owned by
ari Jackson of Borger, Tex.,
and Hi Fool, a six-year-old beneging to Lee Dale of Fountain.

Uncle Sam, Beware!

Che Guevara, most radical of Fidel Castro's henchmen, h hardly above stretching the truth if it meets his aims, but he did not have to do so when he declared that the Inter-American Economic and Social Conference at Punta del iste, Uruguay, "has the stamp of Cuba." Though the progressive-minded President Ken-nedy might have turned his attention to South n conditions and needs in any event, he would hardly have done this so early and so energetically if it were not for Castro's Cuban

so would handy also become that so early han be conseptically if it were not for Castor's Cuban consequence of the consequence

While the South Americans are willing to accept money, however, they are not prepared to let the man who pays the piper call the tune. Firstly, they have rejected, in their counterproposal, a U.S. plan for a committee to condunate economic planning and instead want to be left free each to his own devices in the use of the monetary aid provided. Secondly they have voiced opposition to a campaign to pub-licize the economic and social reforms envisioned

by President Kennedy.

If Kennedy accepts the terms offered by
his would-be debtors, he is likely to get mighty his would-be debtors, he is jikely to get mighty-little for his money in many of the South Amer-ican pations. Some, such as Mexico which was one-of-the five countries sponsoring the counter-proposal, might be expected to use funds allotted fo them wisely and well. Mexico, though, un-like mogi of the Laiph American lands, has had the south of the to make them to aller the conditions which are restrict pursues on the anomalose. In result exerting pressure on the populace to revolt against them is to betray an invincible ignorance of the lessons of history regarding such re-

gimes.

Though insistence on fixing the terms of its loans or gifts is certain to expose the U.S. to charge of seeking to buy control of a continut, the U.S. had better follow this-course if it whise its investment to earn more than the hatried of the oppressed for shoring up the rule of oppressors.

pressors.

The whole essence of the hope generated by the announcement of Kennedy's program to add South-America lay in his vision of improving the lot of the common people. Without any guarantee that the funds would be used for this purpose, any delay which they might buy in the inevitable social revolutions would only tend to increase their violence and the likelihood that they would be in the Castro, if not outright

Session Authorized

Session Authorized
With the Communist and Arra-Asian blocs seeking to obtain the necessary 50 votes for a special UN general season on the French-Tunisan dispute, and with 40 cft the UN 40 nations seeking the seeking the seeking to the UN. 11 received orders from Slockholm to vote in favor of such a session only ster a -mighority was already on record for it. This majority has now been obtained, if sweeden apparently having second houghts about acting in a way which was the seeking of the seeking the seek tions in reverse, and deciding to cast its vote without delay.

without delay.

Those mations favoring such a special session could hardly be enthused at the spectacle of the Swedes sitting on the fence willing for some more courageous nation to become the fittieth nation requesting a session. If this fittieth wite had not been forthcoming, they would have been able to bisme the failure of the campaign on Sweden, ignoring the other 45 ngations who did not support the appeal.

RARE, MEDIUM, WELL-DONE

By GED. H. CABVER, Sports Editor

The "big story" that Mayor H. J. McFarland is to build a "miniafare haple Loaf Gardens" is

As H. J. said, "the roports are substantially correct have contacted one or two men on the matter."

The first time I heard the story was in Marci 1933, in the mayer's suite on the third floor of th Hotel Jahn on Wesseslas Square, Fragus, Croche

It perhaps is not the correct word-for-word re-port of the mayor's statement, but it was something to the effect that "I will build these boys an arena ther

As was mentioned by Believille news outlets last ster, McFarison is tied in with the Chicago Black was, to this minute, with junior "B" hockey.

Now it would appear, the Black Hawks roots are cleaning to sprout and the first tendrile have a de-ed professional tings.

Taylor goes ou: "Belleville was quietly occul-it for a junior "A" franchine this year. The tot t might have been moved was the St. Catharin Since onlyst and the NESS club conserved is not y the Shork Shorket".

Meanwhile the weekted should bring word of genler "B" set-up. Kingston ameter interests, a told are set and ready to co. Here in Belle-Mayer McParland has stated be will aponeer a As a matter of fact a their while age Genlife of Joyce Roal Estate bold this department's ready and willing to promove a senior "B" team

Space Flights a Waste?

re space flights, and the time and money red in their preparation, a waste of effort? Sany think so.

Many think so.

Of Major Tilors' seventeen-fold circumstraints of the earth within the space of 15 surs, the New York Times agar, "The millions are the many the many

Much the same point, with respect to U.S. expenditures, past, present and planned, is made in an article consisting of questions and answers published by the Brantford Expositor. Thus one question reads: "At the rate of \$4 billion one question reads: "At the raie of \$4 billion being spent annually on this program (440 billion being spent annually on this program (440 billion to put a man on the moon), aren't we middriecting these funds? Dr. Vannerer Bualt suggests that we could be putting the money to better use in badar research in science on earth—virus, genetics, and cancer." The answer was: "Dr. Leo Sieg, claif of General Electric's Space Sciences Laboratory, says you can't figure that way. Who says that money would go to cancer research anyway if the space program were stopped?"

space program were stopped?"

That is a rightmate answer as far as the U.S. its concerned, where any reduction in the cost of-the apea program would result in a host of conflicting claims for a proportionate increase in expenditure on other projects, not all of them more utilitarian than the space program itself, as well as a strong demand that, instead of finding some place else to spend the money, the government reduce taxes and let individuals spend it how they would.

This names though has no relation to the

money, the government reduce when the country of the country always has enough money to finance any project which can be country always has enough money to finance any project which can be undertaken with Russian manpower and Russian marking the country always has enough money to finance any project which can be undertaken with Russian manpower and Russian marking.

Russian manpower and Russian materials.

Neverthieles, the reference to money was slipped into that sentence, because in this form it is more understandable to anybody living in a free enterprise economy, where this government common prints clients in taxes or as loan, and where, therefore, it does not possess all the money required to undertake any and every physically possible project.

This does not mean that the Russian space

physically possible project.

This does not mean that the Russian space projects may not have curtailed other projects for they have used up a truemandous amount of manhours and material. But it might not have been possible to use all of these manhours and material in more utilitarian projects. In the U.S., where not manpower and material but money is generally the limiting factor, all money safed could, thouchtealty, have been used on other governifient projects.

It would be considered to be able to argue and the construction of the const

peoples of these nations would willingly forego some creative conforts in order to see man embarked on the most exciting adventure in the history of the face.

Unfortunately, though, there is more than abundant evidence to indicate that the majority of those who submorbe these than the majority of the face of the fac

The Berlin Situation

East Germany has sealed off its borders with a Berlin, heightening tension. It is pos-though, that, when the initial reaction to this closing of the border has passed, the end result may be to ease, rather than to increase, niver of conflict

The Communist bloc disliked the refugee ment for two reasons, because of its harm ful propaganda effects, to them, and because it was depriving East Germany of needed skilled workers and professional men and women. It had not earlier closed the border for two reasons, likewise based on propaganda and economics. Doing so is harmful to the Communist cause in the war of words. It may also result in West Germany banning or curtailing trade with East-Germany, trade on which East Germany is

heavily dependent.

The fact that East Germany, after years of enduring the drain of the refugee flow, now has closed the borders may have resulted from a variety of reasons. It may be that the drain had become so serious that it could no longer be permitted, no matter what the price in the permitted, no matter what the price in the propagands and economic fields. Or it may be that the East German have reason to believe that other developments will soon lead West Germany to curb its trade with East Germany to nay event. Or, and this is the possible hopeful interpretation, it may be that the East Germany and the third that the Communication between West December 1997 of the Germany and that, if the flow of refugees it to Germany and that, if the flow of refugees it to be halted at all, this can only be done by closing the borders. between East Germany and West Bertin.

If this latter interpretation is the correct If this latter interpretation is the correct one, it indicates that Khrutcher means what he says when he declares that it is not his intention to block the Western allier access to Berlin.—If this is true, the prospects of a peace-ful settlement of the Berlin crists would be considerably brightened. Present tensions over the closing of the borders by the East Germans would glie down, for, no matter how sympathetic blockpeople of the West may refer for the East Germans who now find their escape route block-ed, this is handly the kind of issue over which ed, this is hardly the kind of issue over which one would expect the opposing power blocs to

Careful With That Word!

Careful Willin Inal World:
The new shat china has sent some of the
wheat it purchased from Canada to Albania
leads the Toronto Globe and Mall to gleenthe
Albania as "a pawn in the power struggle between the two Communist giants (Russia and
China)." This is an accurate assessment of
Albania's position—but it is not accurate to
call Albania's satellite of China, as the CBC did
on its national news summary.

on its national news summary.

The use of the word "satellite" to describe a nation wholly dependent on another is compara-

nation wholly dependent on another is compara-tively new, or more probably it would be more accurate to say it was recently revired. Yet it is in accord eithis the primary meaning of the word, given in the dictionary as "a follower; particularly a subservient or obsequences follower: or attendant; a subordinate attendant"; In the sense of , being subordinate fattendant ants, it might be argued that all the smaller nations definitely silled with the earnips of one or other of the hig powers are satellities, but in the sense in which this word is used by us today only those nations which follow the dictates of the hig powers absorbly are considered satellities.

only those nations which follow the dictates of the big powers starishly are considered satellites. Albania is no Chinese satellite in this sense. That she is linked to China at all is the result of her repudiation of satellite status with Russia. Size has declined to be a subservient follower in Kimushenevi co-existence party line. It was a subservient for the control of the co

Under circumstances like these, if Albania is a satellite of China, then Canada could be called a satellite of the United States. It km't, in the sense that the word is used in the West to describe nations today, but if the CBC is going to apply the term with such carelessness can we really complain if Mr. Khrushchev and his ilk are equally, and similarly, careless when it serves their purpose to be?

Strictly Personal

Word Values

By SYDNEY J. HARRIS m public-spirited, you are of a reformer, he is a

ONTARIO-INTELLIGENCER, Tuesday, August 18, 1861 -

Major League Leaders

Perhaps they won't have to forget university after all

IS THE HIGH COST OF HIGHER EDUCATION CLOS

You have added up what they can earn themselves and what you can do to help. You may even be counting on a scholarship or bursary as well. Yet it's still not enough . . .

Often the extra amount you need is heartbreakingly small. Yet it is big enough to make the difference between university and - no university. And this at a time when our youth and our country both have greater need than ever for trained minds, specialized knowledge.

THE ROYAL BANK OF CANADA HAS TAKEN STEPS TO HELP MEET THIS MAJOR PROBLEM THROUGH SPECIAL UNIVERSITY TUITION LOAMS.

Usually, these loans will be made to parents, guardians or sponsors of students attending or planning to attend Canadian universities and colleges. They are available in amounts up to \$1,000 a year through four years.

Repayment may be arranged over a longer period than usual. In special cases, it may even be extended beyond the four-year university period. In other words, these University Tuition Loans are set up on a flexible basis, on relatively liberal terms, to permit as many people as possible to take advantage of them.

A ROYAL BANK OF CANADA UNIVERSITY TUITION LOAN MAY BE THE ANSWER TO YOUR PROBLEM,

We believe this supplementary financial help will keep the door to the university open for many parents who are wondering if higher education for their children is beyond their reach. The Royal Bank, and your Royal Bank manager, share your concern in this personal and national problem. We invite you to come in and see whether a Royal Bank University Tuition Loan may not be the solution.

THE ROYAL BANK OF CANADA

Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

"Towasis, Oat. (Spead)—For the affective was able to make the first little science has found a process of the first little science has found a process of the first little science has found a process of the first little science has found a process of the first little science has found a process of the first little science has been affected when the first little science has been affected when the first little science has been affected by the first little science has been affected

ditions, some of the account of actions, some of the use of nar-cotics, anesthetics or astringents of any kind. The sorret is a new heating substance (Bio-Dyno)—the discovery of a famous scientific in-gritude. Already, Bio-Dyno is in wide use for healing injured tissue on all parts of the body.

This new healing substance is In one hemorrhoid case after nother, "very striking improve-ent" was reported and verified v dortom observations. wide use for healing injured tissue on all parts of the body. This new bealing substance is direct in suppository or estates form called Preparation H. Ask for individually sealed convenien Preparation H. Suppositories or Preparation H. ontment with reserved annullector. Preparation H. And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

E OFFERDO DIFFERDISHCER

The annual Belleville fair, which opened orday, gives promise to be bigger and better nan ever. One hestates to use this well-

seatently, tirms journes to be bigger and better han own. One heatistic to use this vielt-worn phrase, for it has seen yourness service to officies the speedonable chromateneous that it has not only been come thin with usage but translated with the suspicion of mendacily. A search for a substitute, though, reveals that there have been considered to the proper of the fair will last fire full days and pleaville, the proper of the proper of the control of the proper of the p that the average fairgoer is at least as much interested in entertainment as in instruction and

interested in entertainment as in instruction and offens a varied program which extent, if not to all tastes, at least to many.

No fair would be complete without its midway and it is wondrous how, in this field, progress has topy the past days of the rings, as the concentration of the rings of the rings, as the concentration of the rings, and the same in the same. Hey normy-nouny, let's go to the fair,

1. The Right to Leave

Both the British and the U.S. governments are on record as asserting that East Germany's action in closing its borders around West Berlin

is liegal. It is no because of the special status of Berlin under the wartine agreement between the coupying sovers, the U.S. Bittain, France and Busia. Generally speaking-howers, the U.S. Bittain, France and Busia. Generally speaking-howers, the right of a country to restrain the movements of its own nationals is almost anniversally recognized. Generally seafors Fulbright, chairman of the foreign relations committee of the U.S. Senate, had actile gone on record as belleving that East Germany had the right to prevent its citizens going into Berlin.

This might be an appropriate time to examine the whole theory of a state's right-to armine the whole theory of a state's right-to

This might be an appropriate time to examine the whole theory of a state's right-to prevent its people from leaving.

'It is our contention that although a state has the right to bur the entry of any foreigners whom, flor one reason or another, good or not, it does not desire within its borders, it ought to be one of the recognized human rights that any great of the state of the a state of war or, perhaps, the imminence of a period of compulsory military service.)

There is little likelihood that all states

There is little likelihood that an state would agree to forego their present right to prevent the emigration of their nationals, even if an international convention abrogating this with the majority. Noneright were approved by the majority. None-theless, such a convention would be helpful, as revealing evidence of the fact that this freedom of movement was desired to

revealing evidence of the fact that this freedom of movement was denied in certain lands. Today it is not only the Communist countries which sometimes report to this control. The U.S. state department's action in barring citi-zens, including reporters, from going to Fed China has deprived the citizens of that country of badly-needed first-hand reports of -develop-ments there.

The turning point of lives is not the great moments. The real crises are often concealed in occurrences so trivial in appearance that they pass unobserved.—William E. Woodward.

The strongest is never strong enough to be always the master, unless he transforms strength into right, and obedience into duty. (Jean Jacques Rousseau.)

Plants And Gamma Rays

at the Bolsay Divis.
Institute has produced useful mustalions in cotton and other claims flowering has been in red in plants of the wartety NP 500 which to rust. If

The Gamma Garden is located in an isolated corner of Pusa farmland away from human habitation. The energy-

In all cases the response var-ies depending upon the level and duration of the dose and upon the species, age and physiolo-sical condition of the plants ir-

active of the plants, the leaves resent on the plant at the segment of the exposure are hanged relatively little. However, young leaves induced relatively little. However, young leaves induced a relative property of the sear shoommalities in clude warfing, asymmetrical development of the leaf blade, dispersively of the search of the leaf blade, dispersively of the ladder.

h chronic Gamma irradi-flowering is generally re-i at the higher dosage and aches that of the control decreasing dosages. How-in some plants, such as

With the advent of megacurie radiation sources it does not seem improbable that certain vegetable crops may be irreduced to commercial scale within the next few years. In addition to the improved storage orbitly, recent work indicates that a certain does of Gamma radiation may prevent reproduction of the nematicle of potato.

Hard to Compare

It's a wry commentary on cul-ture in North America that when the American press needs a parallel for the popularity of Jacquellne Kennedy, it has to compare it with that accorded a movie star. The comparison is hardly flattering, though no doubt it's meant to be so.

The Use of Terrorism

One of the most significant quotations we have ried in a long time occurred in a copyrist story by Donald B. Gordon, CBC correspondent, which appeared in the Toronto Globe and Mall. Dealing with the Bister estimation, and the resort by this French to force to break a peaceful blockeds, declared such as Toronto Greece and the contract of the contrac blockade, fordon quotes a Tunisian Government official as follows: "It is obvious now that our fond hopes of settlement of problems by peace-ful negotiation) were in vain. We had to engage in terrorism to gain our independence. We will have to use violence to get attention on

in terrorism to gain our independence. We will have to use violence to get a tentulum or will have to use violence to get a tentulum or the pittable thing about this oritook is not so much the fact that so many nationalists in colonial lands should think in this fashion as that events about have proved their arguments not without logic. Sometimes the second of the second their control of the second their properties that are a terrible toll, not only of places eventual takes a terrible toll, not only of places who are terrorised but also of those who temporated but also of this or the saminable, the achievement will be married by the means by which it has been attained. Nor is this argument successfully retuted by softling directory of the saminable that the same and the same and

expotung to the rull the independence which is tactics have won.

The effectiveness of terrorism depends more on the character of those against whom it is used rather than on the character of the terrorist.—It is useless as a weapon against the totalitarian states, unless it can be utilized on a ist.—Il is useless as a weapon against the totalitarian states, unless it can be utilized on a massive scale which exceeds the totalitarian and the control of the control

Nehru Tastes Own Medicine

Besides terrorism, which we considered in the editorial above, the other main hope of desperate reformers today is some variety of Gandhi's invention, civil disobedience.

Gandhi's invention, civil disobedience.

This is a tengible weapon, because it is only effective against men of conscience.

Its worth has been over-rated. During the depression years. Austrian miners took a leaf out of Gandhi's book and staged the world's first sit-down strike, staying in the mine. Leftist labor leaders halled it as a new-found secret weapon. Poor deluded men! One can imagine how the Austrian miners would have fared had weapon. Foor deluded men! One can imagine how the Austrian minners would have fared had their strike come after Anschluss, when Hiller look over Austria. Transplanted to this conclusion, we have a substantial to the control of the

Racial Differences Exist

No race wants to be another rece, and all races have their received in the pattern of interesting life. The pattern of the pat

competence, or in their reads competence, or in their reads of point.

The state is proposed into its book of the point.

The state is proposed into its book of the point.

Yet is seems bereay to point it will be point.

Yet is seems bereay to point it will take the point in th

our mission of peace and standing.
But we will never do it so long as so many of our intellectuals betray their duties to scholarship, omit essentials, and are too conformist (or politically greedy) to talk and act in terms of the simple truth.

DEPENDABLE

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

They tried it for years but Ole Palthful's re to deep in Belleville and all their inducement adishments and whatnet falled to de the triek.

They couldn't best him (well, they did occaries), and they couldn't induce him to change h form. He was groud of these shirts that be words "Grand Trunks" and "Nationals."

Now after all these years they have finally got

They held an Oldtimers' basebell game down in King-ston the other day with some of the famous old greats of the 1920-30's coming out of retirement.

He was on the lineup, Jack "Chief" Williams, one of the greatest nouthpaws the old Central Ontario Longue ever saw—and not likely will see again. But the sportswriter covering the game wrote:
"Jack 'Chief' Williams, regarded as one of the best hurlers ever to come out of Kingston, handled the pitching chores in the fifth."

Ah, me, the "Chief" never pitched a baseball game in his His from the inside of a Kinxista uniform. He was strictly Belleville, all the way, and up there in bambell Valladia "Feoney" Mills, "Bahe" Casey and the rest of these illustrious Grand Trunks who have been called "out" are waving misty arms in protest.

The Chief was one of the smoothest southpaws ever seen in these parts. He was the Warren Spake of the COEL and one of the most-feared hurlers in motior baseball in Ontarie. The old Porents Hill-crosis and Window Chicks will substantiate that state-

And speaking of alcitimers there is another who is still going strong and will use action in Yankee Stadium on Saturday. He's that fabuless character, Satich Paige who new somewhere between 55 and 65, is still serving them up and baffling a lot of

The records list him as 55 but most authorities in number represents the years he's been pitching, hardly anyone recalls when he wasn't pitching.

He was well good to when he want i pitching, pitch in the majors, first with the Indians, then the Brown. Before Soliting the Indians, below copied a challency issued by Bob Feller to pitch full no innings aparbot a bean of major ingress att-dars, vi only did Saich so the nine innings but not a man sched third bos.

The following year Saich was Feller's leanmaids and helped the Indians win the 1948 permant. He won seven games and lest once. One was a shules that enabled the Indians to the an American Learnmoord of four successive shull-out triumphs. Pages won Invitre games fee the lowly Browns as late as

He could have set a fiect of new records had he pitched in the malesquin his prime. Be had queed, curves, control and an annuaring assertance of tech deliveries. One serve what he coulded his "maintainer pitch. He'd come down with his freed feed, here the he bell. Ill helferd even the form ove of 40 are. Nazgio. "Danméess change-up pitch I ever new,"

man 200.

Saturday Ole Setch will play in the annual all-size game of the American Negro League. The league consists of four means and plays anywhere, everywhere, which was the property of the control of the control

Saving Difference

Saving Difference

One of life's lesser headaches, for a Canadian, hall been the country's usceptibility to an alment which might be described as political and alment which might be described as political coats in spots on its political coats in spots on the political coats in spots on the political coats of the spots of th

Premier Leslie Frost of Ontario has set forth the reasoning of those who favor such a council. In this jet-age with Canada has grown smaller, the days when provincial premiers could attend to their own business without bothering about other provinces has passed and the matters which are of mutual concern to all provincial premiers have increased.

promincial premiers have licreased.

This is all very well, but can anybody imagine what the life of the Prime Minister of Canada would be like if he were faced with ten provinces speaking with a united voles? the provinces speaking with a united voles? I have been also also been also

What's way to have to run a country!
Fortunately for the Prime Ministers of the future, there is little likelihood of any such powerful united opposition, from all ten provinces as long as our political countenance continues to break out so regularly with here a CCF government and there a Socred regime and Union Nicionale planning a comeback and heaven only knows what new party preparing to pobe its way through the political epidermis at some yet underhand points.

When is differenced:

Highway Scoreboards

In Detroit, the motor city of the United States, something new greets the motorist travelling along one of that city's main arteries. Lighted speed signs similar to football scoreboards, which overhang the highway, show the motorist what speed he should travel in order to the next green light.

make the next green light.

This device, known as the "Traffic Paces," was developed by the research laboratories of General Motors in co-operation with the local municipal road commission. Its purpose is to improve traffic flow oper streets with intersections, and it is currently being tried out over a four-mile stretch or quad. It is anticipated that the device will allow traffic flow through intersections to the contract of sections to increase in capacity by 20 per cent.

sections to increase in capacity by 20 per cent.

As in all things mechanical, however, there is a certain degree of failibility which is incurred by the human factor involved. This, the engineers working on the project emphasize, is when the drivers pay no heed to the speeds indicated by the device and clog up traffic or when an abnormal number of cars are using

Well we cannot expect everyone to read these scoreboards, with so many about who have yet to prove they can read the writing on the wall.

I have known no man of genius who had not to pay, in some affliction or defect either physical or spiritual, for what the gods had given him.—Sir Max Beerbohm.

Old men have need to touch sometimes with their lips the brow of a woman or the cheek of a child, that they may believe again in the freshness of life—Maurice Masterlinck.

Economic distress will teach men, if anything can that realities are less dangerous than fancies, that fact-finding is more effective than fault-finding.—Carl Lotus Becker.

Eating Outdoors

only fitting thing to do.

U.S. Army Program Could Add 15,000 Men by Next Summer

WASHINGTON (AP)—The US. army today was embarted on a preprint that could add as leading to the US. Army today to post summer. Army Secretary 2504 State will be governed to some desired to the US. Army today to the US. Army today to the US. Army to the US. Army today today to the US. Army today to the US. Army today to the US. Army today today

He told a press conference Vednesday that among other phings the army has placed on the siert 113 reserve units with a total of 23.638 men, that they have been designated "priority units for possible call to active duty."

State said the army expects to reach an authorized total-ty next June 30 or 1,000,000, but then added:

"We still may not and, indeed, we hope that the international aituation will be such that the doubt how to sull them

erve units and individual reinregimella from the mobilizaion pool."

Rossweer, there was more cerainty about the future for other obdiers! The army intends to any attend the duity tour of about 4,000 men from the renks who cla mill now had been scheduled to

more than the centre of the complete their enlistments become the complete their enlistments because the complete their enlisted, they will not be complete their ending their

Officers have their plans cutout for them, too. Those who now are serving what they thought would be six - month active duty tours will be liable to up to one year of additional duty.

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CABVER, Sports Editor

se guys and animals are been lucky, other good fortune and yet others have it thrus

Many equine race track champions and prior-ring heavy-draught herose end up ingenentalessly in a gives pot. Fine bulls and sincer after a brief span of life wind up in a most cannery or on a buicher's block. That perhose of fishes, the asimon, gives his bedy to a mind bowl. After all, what fun de they get out of

But Yuffy's alliging is living the life of Bally, Most of this overgrown linear family live out their allotted gase of some 1.500 years latest evened in a Florida or American river or pole, priminals, man-problem is overy about. Presidently problem is problemed to very about. Presidently they wind up in largage manufacturing joints, or have their Mote careved up in multi-clunks, embreddered with a handle or love and some finery, and are carried around on military area as a press.

Not so Tuffy's tidbit. This allthering freeloader is ealy one of his kind to get the chance to see the rid at no cost, without benefit of joining the navy.

It lives well. It gets three big meals a day, if it bethers to wake up to eat them. Its rease-like chep-pens are teathered daily so you don't have to wen-der, where the yellow went. It has a thinking or-colling choice of vinnin, and is not averse to chemp-ing on a bussan leg or arm, if it can get within range.

For, as Tuffy says, an alligator lives to est. It has 80 tooth in his gaplar, jaws, 80 crumchers that some hambers; a man with one shandlering change. The few of an alligator extri a pressure of 900 poemics. Think of it. Nine hundred poemics. God, wat a minering way to dis.

Two Paths to Freedom

from what we have read Dr. Hastings Banda Jomo Kenyatta have little in common save color of their akin and the nature of their m. Both are black men who have the on of the day when the men and women of r race will rule themserns

and some acceptant new fittle in common save reason. Solidad shiftled the nature of their bream. Solidad shiftled the nature of their bream. Solidad shiftled the nature of their bream of their race will rule themselves.

Dr. Bands, from what we have read, is an educated man wedded to legalism, to a peaceful approach to the day when the white man will willingly reliquish the reins of power to hlack willingly reliquish the reins of power to hlack willingly reliquish the reins of power to hlack yalks on the other hand, is another or to hack yalks on the other hand, is another or to head of nationalists who used terrorism as a weapon, is height alleged that he was the manager of the Man Man.

Both Bands and Kenyatta have had their day of rejoleing this week. Bands's followers day of rejoleing this week. Bands's followers day of rejoleing this week. Bands's followers in the Man Man.

Both Bands and Kenyatta have had their years' imprisonment and, despite the fact that becamen true for a seat in the Kenya Legitalive Council because of his prison record, is created by the Bands's followers to include the cannot run for a seat in the Kenya Legitalive Council because of his prison record, is created by the Bands's followers to include the country towards independence of the peaceful Bands. Kenyatts, finding hings' restly changed during his years in captivity and his country's step now firmly planted on a path distinct to lead it to ventual independence, re-flex every single one of you respect the other."

It regard everybody as my friend." Through in his parader well gist our independence, re-flex every single one of you respect the other."

It regard everybody as my friend." Through the la, he will make a be a bending it in the solidad of the his solidad of

Exception Taken

Cxcoption | aken |
One of the more interesting dedresses given recently to local service clubs was that of Anthony Cobota of Bakawa to the local Elivania Club.

Mr. Cetota unged young men to plan their lives. There was much in what he said. Too many of us live from day to day, wait on events, drift with the lide and discover too late how this little time is refer. Almost an unpercit is to time. little time is left. Almost no project is too time-consuming, almost no program of self-improve-ment beyond our strength, if we begin it soon

enough.

Taken in this context, Mr. Cekota's advice was good. But when he said that modern man separates his life into too many compartments, rather than planning it as a white unit, we suggest the statement needs examination before

gest the statement meedi examination before acceptance.

Dild Mr. Cespta mean that this compartmentalization exists in times, with one period or mentalization exists in times, with one period or the mature of different sactivities understaken. The state of different sactivities understaken the state of different sactivities understaken. If the former pit seems, to us that this is not necessarily a bad thing, and may indeed, be a very good one. It is a sorry man whose interests do not change between britth and interests do not change between britth and distant, or evefi between first maturity and middent, or evefi between first maturity and middent or every constant of the state of the

LOOKING BACKWARDS

GLEANINGS FROM OUR PYLES OF SYGONS YEARS 50 YEARS AGO 20 YEARS AGO August 19th, 1941. August 19th, 1911.

August 19th, 1911.

Early velorizary increming the roughcast house on Church Street owned by Mr. Robert Mackle and occupied by him and his familty, was bedly guited by fire. The innaises of the house had a narrow escape and had to leave the burning building by the upper windows. Giving generously of their ne and energy so that ad-tional comforts might be time and energy so that ad-ditional connérs might be supplied to British War Victims six little gifs from the east hill district earry this weak-showed the stuff of which loy-sid Cessedians are made. They set up a stand on Bridge Street bear Abort and Charles and sold lemonade, cookies and tarts, etc. to passrely and re-alized the sum of \$13 which has been forwarded to the Erdows.

Ald. R. W. Adams has been appointed to the Board of Lie-man Commissioner for West Hastlings in the place of the Issaings in London.

Ald. Chown and Ald. Wernillya presided at the policy court this morning.

The Rev. J. P. Dingman of Mount Forest, Ont. a former Bellevillan, was the special, prescher at the Baptist Church have so Sinder at the Baptist Church have so Sinder at the Saptist Church have so Sinder

preacher at the Baptist Church have on Sunday. The rolling mills which have been only partly in operation for some time, will commence running full especity tomorrow. Mr. C. W. Bason of William Storet, has left by visit his daughter, Mr. S. W. K. Canty, in Zdmonlon, Alis.¹ Mr. George Thompson of Montreal, an old Belleville-boy, is witting his parents, Mr.

tarts, etc. to passersby and resilized the suin of 131 which has been forwarded to the Eventual Control of the Section of 132 which has been forwarded to the Eventual Control of the Section of Section of the Section of the Section of Section

Montreal an old Bellevis boy, is visiting his parents, M and Mrs. George Thompson of Catherine Street.

Pinch Hitting

Following the fushion of the scenes, hamball and thall playsowns will highlight another busy week-id of sport in the Quinte district.

Two of the top attractions in Belleville proper a OASA Intermediate "A" playdown between Brode and Joyce Real Estate toolght and the Lakesho eball playoff game between Port Hope Ontarios as Kennors tomorrow afternoon.

The Kemmera, who have found in the playoffs sor that they have to do more than throw their players the field to get a victory, will have their hands full shate the Pert Hopers Sunday. Gome time, is 2.30 the CNEA Park.

This will be the second game in the best-of-five series or the Lakeshore champlonship. The Kenmors won the spening game the other evening, an abbreviated 3.3 de-sides in Port Hope. The third game of the set will he be played here but no date is available at this

Also on tap this evening, up at Bay Shere Park Trenton, is the opening game of the OASA Scaled "8" ouries between the EOAF Fiven and the power-Packed Primes George Balliams of Kingston.

Everybody is familiar with the RGAF linesp and there are also zone well-known names on the Kingston team Bobby Gress, not ours, but another top-notcher from Printforough and Toronto very, in the Inglian mound see while the Senier boys, Bobby, Don and Dong, are smoother regulars.

Elsowhere in diamond action, the Belleville Junior
"A's" are visiting Kingston in their OASA opener. Belleville's bantam softballers played host to Co-ug this afternoon. Our side won the opener last week 12. The baseball Peewess opened their OBA series Kingston and the Midgels did likewise in Peterborough

We would like to take a bit of space here to thank—In advance—the boys from the Hasty Peer Regiment for the free band concert they are putting on from 7.30 to 8.00 p.m. this evening.

The concert (and it is absolutely free, there won't swen be a collection), will be held by the fountain at the entrance to the Fairgrounds. The boys have donated their services-for the Muscular Dystrophy, Society and all you are saited to do is accept a pamphlet on this droad

serie Editor George H. Carver returned to his uniting grounds, in Halifax, this week for part annual summer vacation.

Description in the control of the cont

Driver Insurance Next? The All Canada Insurance Federation re-ntly advised the Ontario Legislature's select mmittee on sutomobile insurance that its sembler companies, representing some 95 per mit of such firms doing business in Canada, ere prepared to provide hourance for "all permes to whom the Province of Ontario is prepared.

is issue a licence."
This is due to an expansion of the eligibility lection of the susigned risk plan. A surcharge-tearnfaled by the plan's governing committee, will be involved for those persons who have zaher, a secesive accident records. This surcharge till not be corrollant, the federation representatives told the select committee.

With the growing feeling of approval towards compulsory automobile insurance, provided, if ary, by the province, this move on the part of the insurance companies can hardly be interpreted as unexpected, although reports indicate that several members of the select committee regarded it with surprise. The move is ary one if the interests and investment of the automobile insurance firms are to be protected against competition by a governmentowned or sponsored scheme.

It is good to see private enterprise meet a blem involving the public's interest rather than having the government provide the answer at additional expense to all the taxpayers rather than just those making use of the service pro-

With the insurance companies prepared to coept all drivers there is now no reason for

With the incurance companies prepared to accopt all drivers there is now no reason for any driver not having public liability and properly damage informance, outside of the direct moonth this cost can hardly be terned crossive. The is a poor driver with a plad accident record the tariff is bound to be increased. If it is such a price into the cannot afrect to be covered by insurance then he can hardly afford the privilege of using public highways.

We would suggest that it might be a good more if each applicant for an operator's or chauffecture permit were required to hold a policy covering public liability and property damage containing the privilege of using public highways.

This would surve to put the individual responsibility directly on the driver for his actions rather than on the owner of, the vehicle which he may be operating. It would also eliminate its policy of registering a car in another pennels name because the actual owner has a poor driving and accident record.

Individual driver insurance should be the

Individual driver insurance should be the next step in safeguarding the interests of the general motoring public.

A Silly Sally

Fow men did more to win the Bocond Great War thing Lord Beaverbrook. As minister of aircraft production, he discerves to be numbered among the few who saved Britain.

It is amang asserting that the Foot were to with a man pastering that the Foot were to the the same of the same of

This is nonsense. That the Poles, particularly the pre-war ruling clique, could be irransigent nodory will day. That sweet reaconableness could have tamed Bilter and made him life at peace with his neighbors no same person will admit. It

person will admit.

It may be argued that this nonsense was printed in a good cause. The Express was warning against the Western Allies letting the two Germanys drop them to a war ever Berlin and the West Berlinner reaction to East Germanys provocative more specials some danger manys provided in more present some danger in the same that the present and the same properties and the same properties and the same properties and the same present and th

How a Joint Account helps you handle all your finances

Most newly married couples run into the same problem—Who's going to handle the money? At least part of the problem can be solved by opening a Joint Account at The Toronto-Dominion

You may ask why a Toronto-Dominion Joint Account? That's easy to answer.

Our Accountants are the MOST HELPFUL you'll find

Once you have decided that a Joint Account could be the answer to your banking needs, the man to see is the Account ant at your local Branch of "The Bank"

You will meet a man like Lionel Hinds, the Accountant at our Branch in Belleville. He can explain the advantages of a Joint Account to you, whether it be a Savings, Current, or Personal Chequing Account.

What are the advantages? It's practical. Both parties can deposit money into the one account. It's convenient. You can both write cheques against the account and only one signature is necessary. This means that in the event of illness or accident to one of the parties, the balance of the account is still available to the other. Many householders have found that a T-D Joint Account is the easiest way to keep their records up-to-date and accurate.

Lionel Hinds is typical of the hundreds of men and women in Toronto-Dominion branches across Canada who take a sincere interest in you and your banking problems. Why don't you plan to meet some of these people . . . see for yourself how much ...

An Admiral and "Free Speech"

An Admiral and "Free Speech"
The current issue of U.S. News and World
Report earnies the transcript of snews by
Admiral Articiph A Burks to questions posed to
thin when he appeared before the Fatishal Press
Chin is Washington, D.C., on August 2. Admira
Dernations. He was questioned about so-called
munisting of military leaders. White he said
he did not think such leaders were being muniside, the whole text of his remarks, which he said
he did not think such leaders were being munitied, the whole text of his remarks, which he is no
long to give, makes it plain that he ballewes they
have not only the right but the duty to speak
out in public on questions of national security.
It is relatively simple to make a good case
for such a contention and Admiral Buris did so.
Hevertheless, he is wrong. He stand is incompatible with our system of democratic government. And, of course, no dictainantly own
which are remittiary leaders speaking out in
opposition to the views of the pulitical chefrian
opposition to the views of the pulitical chefrian
with any state, democracy or dictatorably,
we is merely a continuation of feeders and

With any state, democracy or dictatorship, war is merely a continuation of foreign policy. It is no part of the right or duty of a military leader to determine what this policy should be. It is his right and duty to advise the political

leader to determine what this policy should be it is his right; and duty to active the political leaders, who do determine policy, whether the armed forces will be able to discharge the duties which will full to them in the swent of this policy leading to war. This is all.

It will be argued that any military leader has a duty to his country and that this duty involves letting the people know when the forces policy has true. But the military mean who, for this transon, people know when the political readers who can be seen to be related in his post as advisor to the political leaders who determine policy. His role is identical to that of the governor of the Bank of Canada. Within contain limits, he has a free hand to determine how beat a policy can be latered by the political readers who can be considered to the political leaders who has provided to the contain the policy. His role is identical to that of the governor of the Bank of Canada. Within how beat a policy can be latered by him but by the government. If he is asked to follow a policy which he believes disastrous, he should be free to speak out if he wanted to do so. He cannot though, at one and the same time be bree to criticise the policy of a government and retain his position as advisor to that government on military that only in the U.S. would any responsible military or political leader question this principle.

any responsible minution this principle. 0

Pinch Hitting

Tummy Pedder, Belleville's men-among-the-risumers, amounced yesterday that he was going head with his plans for a Descrute-le-Piejon swim

mmy recently turned down an invitation to enter nadian National Exhibition's \$15,000 swim and is trating on developing a pace that will carry him the English Channel next August.

le feels that the Deseronto-Picton swim will be a test of his present condition, as far as long-dis-swimming gos. In a letter to this desputment the day, Tommy said: "If I am successful (with the onto-Picton swim) I'll be going all out for a sal Swim sponne for next August."

To swim the English Channel has long been a nam of Tunnary's and H determination means any-ty, he could make H yet.

Long distance swimming, such a fied a few years ago just about everybody and his dog was giving it a lass father off here recently.

Som clube played in the Belleville and District Soft-League this season.

Cobourg, on the other hand, had to fight all the way grab a playoff spot. They had a rough season in the long and fielding departments, although both Dawe and sphell pitched great ball at times.

Brower disposed of "nice guy" Tory Marino here last lay so apparently the powers-that-be decided to give "Bulldog" a bit of his own medicine. Kalmilton is the going rough too, so this one should provide only of action, most of it illegal.

WRITES WEEKLY COLUMN — Henry Makow, 11, of Ottawa writes a weekly column about bringing up children which appears in 33 newspapers across Canada and the Unthad States. He began his writing career in April after convincing edditors of the Ottawa Journal that his ideas were his own. (CF Photo).

11-Year-Old Columnist Says Good Spanking Will Cure Neighborhood Bully

By JACK VAN DUSEN Canadian Press Staff Writer

heps licking people "try make graing him the target."

A good spanking will cure a boy boy both odd thidren.

This was spontaneous advice both have

given by Henry Makow, Ottawa's 11 - year - old newspaper columnist, during an interview in which he answered question on his forte: bringing up chil dren.

The dark - haired youngstar

papers across cannon and a United States, didn't fluif a dierion during is chat at his home. His attractive blonde mother served lemonade and his father. Dr. David Makow, 37 - yearold National Research Council

TERRE ADVACE
Henry, working on the assumption that as a child be should have inside information, writes a column of advice to parents on bringing up children. Parents and youngsters write about the problems and

excerpts from their letters appear in the column with Henry's terie advice.

Here's a sample question and answer:

Dear Henry: I have three girls, one 13, and 10 and the other one ways old. The one-

difference in ages, is very spoiled. What should I do?—
Spoiled.

Dear Spoiled: I don't see how a one-year-old could be spoiled. A baby should be given lots of attention and love. Don't worry.

Henry.

Begun four months ago in the
Ottawa (Journal, after Henry
convinged the editors his ideas
were his own, it has caught on,
bringing a measure of fame and
fortune to the wiry, 83-pound

prompter.

How does he arrive at

Pinch Hitting

If major league ball cinbs are still handing out not-se-small fortunes, in because in a few years' tires, den't be surprised if you see a youngster by the name of "Pinky" Deras become a millionaire over night.

Pinky's real name is Art and he hails from Ham-nek High School, in Michigan State.

Right new he is 14 years of age and he has been ying organized baseball for a total of four years

"Pinky" is a hitting pitcher and already his mark both phases of the national pastime have attracted re major-league scouts than some of today's big leagues knew existed.

In the batting department, the roung right-hander been to but 320 official times—and has collected hits for a "career" average of .513.

And if this isn't enough to turn all you would-be betting champs green with envy, exactly one-third of these hits have been home runs. Yes sir, count 'em, 85 home runs.

His pitching record? Well, it's not 1.000, but then "Pinky" has won 51 games and lost a grand total of two. Included in his 51 victories are 22 no-hitters. He has struck out 594 batters in 293 innings.

the hose generic out 634 patters in 233 innings.

The two "black marks" against his pitching record
on in a Little League playoff game back in 1938 and
a high school game this spring. Cranbrook best him
a high school freshman this spring but he came back a
ck later to blank the Cranes on two hits.

"sweet areas to classe use Cranes on two bits.

He is hoping to lead his Hamistanch Pear League
team is a national championship at the present lines.

As Deraw west through the same cycle.

He biased his fast bull and stroked his but with not
decivenous that he was named "Little Leagues" of the Yeal" after handing Hamistanck's Little Leaguers to
a national championship.

"Pinky" also had a go at regby last fall, quar-terbacking, and he is plenty big enough for the job. He stands an even six feet and weighs 165 pounds.

His parents, who rarely see their son play, "be-iesuse he says he tries too hard when we're in the stands," would rather he forgot about football and stuck to base-hall. "We wouldn't want him to get hurt and ruin his thaseball chances," says Mrs. Dersz.

Well, Aladdin's Lanup belongs to the fairy books but a gay by the masse of Art "Pinty" Deras may find his magic by rubbing a bag of resin against a base-ball.

CENMORS TONIGHT

while the Kennors have no "Pinky" Deras in their neon, they do have a powerful aggregation that pro-tince the property of the property of the pro-ton the fars once the efficied call: "pay ball."

The Kennors will see "sellon under the lighth at the Fallyrusedis tonight, at Lik, when they altermy to wrap up the Laksahere League championable against the Feet Hope Ontaries."

Belleville, a junior team playing in an intermediate league, has had a great season to date and, barring a drastic change, should win the loop's playoff crown, if not tonight, then in the near future.

The Keamors will be playing in Junior "A" com-petition once they enter the Ontario Baseball Asso-ciation playdowns. They will be defending the title they won last year.

For many of the players, this will be their last year of junior play and they would like nothing better than to repeat their titular march of last season. They will meet @terborough or Kingston in the first round.

A word of warning boys. Remember how oocky the 1859 championship Hamilton team was here last year and also remember what you did to them. Don't let the same thing happen here this year.

Bantams Drop 13-2 Game to Peterborough

Peterborough laced Bellevill
3-2 in Peterborough last nigh
o open the second round of
the OASA Bantam playdowns.
The second game of the serie
till be played at the CNR.

CANADIAN OIL

Published Daily by RTO DYTELLIGENCER LIMITED

Marie to U.S.A. (11.50 per year, Ser of The Canadian Daily Newspaper Association; Member of Theodian Press; Member of the Audit Sureau of Choulation.

Advocates Free Public Transit Hans Blumenfeld, planning consultant to Metropolitan Toronto, has a provocative article in the surrent issue of the Financial Post, in ch he advocates free public transit, by subway, train and bus.

His reason—it would be cheaper than build-ing super-roads to handle the increasing torrent

of private motor cars.

"Nobody collects fares on elevators for the simple reason that it would cost more than it was worth," he writes. Similarly, he argues, the collection of fares adds to the cost of big city transit operations. If there were no fares passengers could board conveyances at two or more doors, speeding up service and thus attracting more passengers, many of whom would otherwise have driven their cars. Thus as well as saving the cost of collecting, checking and bookkeeping involved in charging fares, expenditures on maintaining and widening streets and on providing parking facilites would be reduced, he

Much of what Mr. Blumenfeld says is not applicable to smaller communities like Belleapplicable to smaller communities like Belleville. Nevertheless, we suggest that such smaller centres would do well to bear his arguments in mind, particularly if their public transportation facilities are publicly owned, as in Belleville, or if a municipal subsidy is being paid to a private

operator.

While free transportation might not be advisable today, it could easily be that developments in a few years would change this picture. For instance, the trend towards the establishment of shopping centres on the outskirts of cities, and the provision there of parking facili-ties, is certain to bring understandable pleas from merchants in downtown areas for the acfrom merchants in cowntown reases for the acquisition of more city-owned parking lots. Though much, or sit, of the cost of the establishment, of such lots can now be recouped by charging fees for parking, there may well come a time when this is no longer true, when costs exceed revenues. If that day arrives considerations of the cost of the exceen revenues. If that day arrives consider-ation could be given to Mr. Blumenfeld's argu-ment for free public transit, before and not after heavy expenditures on providing parking fa-cilities.

First Educational TV Station

Canada's first educational television station is stated to begin broadcasting in Toronto in 1963. It will be operated by the Metropolitata Toronto in 1963. It will be operated by the Metropolitata Toronto in 1963. The West of Toronto in 1964 of the State of Toronto in 1965. It will be operated by the Metropolitata Toronto in 1965. It will be operated by the Metropolitata Toronto in 1965. It will be operated by the Metropolitata Toronto observed to the Metropolitata Toronto School Boards, Ryerson Institute of Picchandery, description Museum, the Toronto Art Gallary and public testing the Company of the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the State of Toronto Museum, the Toronto Art Gallary and public testing the Toronto Museum, the Toronto Art Gallary and public testing the Toronto Museum, the Toronto Art Gallary and public testing the Toronto Museum, the Toronto Museum of Toronto ers knould be members of policy-making bodies to present the "professional" viewpoint, it was

Just as war is far too important for its direction to be entrusted to the military, so too education cannot be entrusted to the educa-What is to be taught, or at least the broad objectives which are the aims of the edu-cational policy of any community or state, must cational polley of any community or state, must not be decided by teachers alone, but by all of us, speaking through those representatives whom yes regard the best qualified to make such de-cidents. Teachers, of course, have as much right expected best qualified to make such de-cidents. Teachers, of course, have as much right making and may, indeed, because of, their frinking, be among those chosen to make these decisions for us. But the establishment of an educational policy is not their exclusive right. On the other hand, now things are to be taught is atmost the exclusive province of the a Rehtly-imosod supervision from the non-brown as Rehtly-imosod supervision from the non-brown

a lightly-imposed supervision from the non-pro-fessionals, such as that which a government exercises over the generals it appoints to con duct a war. To suppose that any effective program of education by television could be undertaken without resort to the professional advice

of teachers is absurd.

of teachers is abound.

Whether participation by the teachers in arranging for effective use of the nation's first television station requires their federation to take out membership in the station's governing body is perhaps not so clear. The Federation will study the matter and decide next January.

We Help Balance Your Budget ...

ming your household budget in balance one of your principal ms? You can find plenty of practical help in solving it in the pages of this newspaper. News of seasonal trends in food prices will help you to plan your menus more thriftily . . . even stock up eeks ahead at savings (if you have a freezer). Sew-it-yourself spections can help you reduce family wardrobe costs. Home iment hints can help you fix up your home for less money than you may have expected. And be sure to keep a keen eye on advertising columns, too, because that's where you'll find the first news of the best buys in practically everything your family needs or wants. The more you know about price trends and values, the better you can buy . . . and the best place to get the most information of this kind fastest is in the pages of this news-

Chambermaid's Duties

REAR DORES:—I would like to be the duties of a chambermaid in a hotel. When a woman hires out as a chebernaid, is abe expected to wash chirthe dining room, scrub floor and to official.—SATTENNER.

DEAR EASTERNER

DAR EASTEANIES—According to the British of Computing and Title, the official reference pudes of the National Templeyment Office across Consols, a chambersalid dose proved clement in bode roose, askes DORE CLARE. The state of the National Templeyment Office across Consols, a chambersalid dose proved clement in bode roose, askes DORE CLARE. The state of the National Consols of the National Clare across the State of the National Clare across the National Clare across the National Clare and National Clare across the National Clare acros

It's still a good idea to avoid trouble by having a ar understanding of duties involved before accepting a supplementation of the strong strong or the

DRAR DORIS:—I have been married for over 7 years and have three shiften, spec \$16, 35; and 2 years old.

The shiften of the sh

the trouble (sp. ma.—SEATEM BEYOND.

DAGA BERKIND SECOND — Make trouble for him first. Canadian haw in any province will upbold a woman whose hondered drichs, commist solitory required, and beats her. Women are no longer chattels.

In going back to your faulty court—which is the proper pince to seek help—you must show youwelf to be resolved. You can no longer with try your hand to change. You must lay darapes, then stand by your calculor. Why lever him, by propens to stay arepeated.

DEAR DORIS:—I have known a certain girl friend since we were both little. Now she has moved away and unless I go to see her I only see her in church. I go over on my bicycle—but it is serven miles there. She has a big brother both he swere offers to drive me back. I think if she was a real-friend she could be more con-siderate, don't yout—RIGA M.

DEAR RIGA:--Invite her over special. Tell her the same distance both ways.

It's the same distance both ways.

She may think you want to come and see her. In any, case, a friendship has to be more than one-dood hast.

Set any basing friends nearer home and don't be may be a supported by the second of the same years to be sociable and friendly with cery-ploof.

The big brother has never thought of driving you home; be has his own girts to take out! a in Town the 746 pages of SIMPSONS-SEARS '61 Fall Catalogue.

Change in Tune

One of this most surprising features of the latest phase by the "Berlin crisis," arising out of the action of East Germany in barring her "nationals" them West Berlin—and therefore from West Germany abid freedom—has been the speed with which lension has eased. Particuspeed with which tension has eased. Particularly is this amazing with regard to the attitude of West Germans, both those inside and outside Serim. Oh, it is true, of course that Chancellor Konrad Adenauer, only Tuesday, told the people of West Begin that West Germany will use its "full political and moral power" to preserve their freedom. But words like these are a far cut freedom. But words like these are a far cut of the control of the series of the control of the ed barricades and stopped the flow of refugi into West Berlin. Then he was calling for sessation of trade, economic sanctions. May seesation of trade, conomic sanctions. Mayor Willy Brandt cooled out in a hurry, too. Wednesday of last week he was demanding "action more than words" By Saturday he was calling US. Vice-President Lyndon Johnson's flying visit to Berlin just the kind of action which was

Why? This m Wny?

This may all be the result of sobering second thoughts of Adenauer and Brandt heeding a fellow-German, West German Defence Minister Joseph Strauss, who on Friday told a press con-Joseph Bixauss, who on Priday hold a press con-ference "the time-has come to be calm and patient and to keep one's head cool." Or the cooling caution may, have spring from advice from West Germany's allies. Or Adenauer, Brandt and company may, of their own selves, have refriected that too great a flood of indignant words might aft the Bast Germans to revolt, facing the West Germans with a terrible dilem-ma, whether is leave that fellow countrymen as, whether is leave that fellow countrymen as, whether to leave that fellow countrymen as, whether is leave that fellow countrymen whether the self-west constraints of the con-tingent of the self-west constraints of the self-west constraints of the self-west con-traints would be compared innective times backet by other NATO forces. This possibility of a revolt in East Germany is almost certainly the night-mare of all NATO leaders these difficult days.

There is an AATV issuers these dimenti days.

There is another explanation. The Vancouver Sun, charging that "Herr Brandt is playing games with other people's lives" when he
called for action, observed: "If there should be
a war, nuclear bombs would certainly hit Russian cities and American cities, and possibly Canadian cities. But it is unlikely that the Communists sould incinerate Berlin, since they are already n nossession of half of it."

in possession of half of it."

Adenauer's calmer approach to the problem seemed to come suddenly, after he had talked to Soviet Ambassador Andrie Smirnov last Wednesday. Maybe Smirnov told him that, con-trary to the Vancouver Sun's speculation, there was an H-bomb with Berlin's name on it—and others for Hamburg and the Ruhr.

The Space Environment

We do not know whether to credit Major Gherman Titov, Russian cosmonaut, or some unknown translator, but one or the other of

unknown: translator, but one or the other of them is admirably adred with words.

Major Tilov, writing in Pravda, was des-erbing a meal in space. The food was in the the only feasible type of container for weightless eating, since it enables the dinar to squeeze the food in the direction he/swants it to go, into his

But a few drops of black currant juice did not reach that; destination. They hung quiv-ering and floating in space.

Now, pray tell, how does one describe that? The Major did not "spill" the juice. Spill denotes a michap.

The lines certainly did not "drop" from the

otes a mishap.

The juice certainly did not "drop" from the

cannote a minasa, with not "drop" from the tube. The Julico certainty idit not "drop" from the tube. At the cannot "slop" over. Space demands a new technique with words. Major Titov, or the frantaisor, managed nicely. The julico, we are told dribbled out." Not perfect, perhaps, but it paints the picture. Considera just see those drops of julico slowly separating themsalves from the tube and hanging them; witting patiently to be accorded up the slowly separating themsalves from the tube and hanging them; while patiently to be accorded up that a good the slowly seem that the slow of the slowly seem to the tube tube and realized very long invariable could device a machine which would provide a weightless environment for Junior when he first tries eating Pahlum. No, no, no—wall a moment—if he spat, even half-heartedly, the grade mouthful might end up on the kitchen celling. We'll have to think this one out all over again. The space age demands a different technique with more things than words.

Where there is no free agency, there can be no reality. Where there is no temptation, there can be little claim to virtue Where the routins is rigorously proscribed by law, the law, and not the man, must have the credit of the conduct.—William Hickling Prescott.

FUNERAL SERVICE

7th Anniversary Sale FRI. & SAT. ONLY

TOTS 'N TEENS WO 8-1889

You Set The Price

THE ONTARIO INTELLIGENCER, Friday, August 25, 1961

The recent article in the Saturday Evening it concerning "The High Cost of Dying" has winced me that we should tall the people of lieville about our funeral service prices.

In our casket selection room we have alwa shown a complete funeral service for \$105, including our personal and staff service, embalming, cosmetology, restorative art, establishment facilities, funeral coach, sedan, register book, acknowledgment cards, and a casket with outside cards.

For less than \$500, we offer five different selections \$195., \$295., \$395., \$465., \$495. Over \$500, we show twelve different selections. You alone determine the cost by your personal selection of what YOU want.

Memorial Societies referred to in the Po cle, request a so-called funeral service sistin gof a little more than transporting cased from the place of death to the setery to remain

We invite you to code and see for yourself at anytime. If you wan a pre-arrangement, we shall be pleased to satisf you in pursantening the type of service that you desire. Many people are doing this. There are no mysteries about funeral service at Thompsor's. Find out the facts for yourself and don't be misself by those who would remove sentiment from our way of life.

Different Approaches

The difference between the Russian and U.S. space programs could not be more neatly illustrated than by comparing. Russia's latest whitevaments, sending two commonants into orbit around the earth, and the latest U.S. fallure, an attempt to launch a rocket from an orbiting

although the logical, and probably necessary, first size between the property of the second of the subject of the second of the

time or effort on duplication.

The US, on the other hand, conducts many more experiments. This is partly the result of a division of authority, with the Army, Navy and Air Force all having had their finger in the ple. But also, in part, this may be explained by the difference in the US. objective, which is more to gather information for the future than to register achievements today.

It may be argued, and probably with considerable accuracy, the condition of the US, against its will be the their conditions of the US, against its will be the late of rockets woweful account to

proacn has been forced on the U.S. against its will by its lack of rockets powerful enough to duplicate the Russians' feat. Not being able to compete in the field of immediate results, the U.S. has had to put smaller payloads to the only possible useful work, gathering information

for future experiments.

The fact that their policy has been forced on them, though, does nothing to rob the Americans of the special advantages inherent in such

a program.

If and when they get rockets as powerful as those possessed by the Russians, they may close the so-called gap in the race into space much more rapidly than most of us today would imagine possible.

imagine possible.

It ought to be added, however, that the Russians are certainly aware of this possibility and are probably just as eager, to improve their information-finding instrumentation as the Americans are to obtain more powerful rockets. Nor is there any valid reason for doubting bast, river time, they can match the Americans. Nor is there any valid reason for doubting tops, given time, they can match the Americans in this regard. The Russian successes with manned "spaceships" in orbit prove beyond a doubt that their instrumentation work in this field was of the highest order.

Gambling Here - and Abroad

U.S. Sénators have begun an investigation into racketeering. They have been shown a whole array of crooked gambling devices. They have been told that gambiers in New York City field to Canada and operated here when things got too hot for them in Manhattan.

got too hot for them in Manhattan.

Fred Gardiner, Metropolitan Toronto chairman, has commented that gambling on a large-scale is a thing of the past there. He called the charge that gamblers field to Canada "just another move to shift the heat off New York crime charge that gambiers field to Canalas "just another move to shift the heat off New York erims
to Toronto without good reason." Metropolitas
to Toronto without good reason." Metropolitas
vere "a phasin of the same thing over again and
not a thing we don't know." Both say there is
molting new in the charge and this we can accept as true. But whereas Gardiner says there
is no large-scale gambling in Toronto, Mackey
merely says that the charges do not refer to "a
thing we don't know." This is not precebely the
same thing. Knowing about gambling is onething and atopping it is amother only country
where gambling is rife. One of the biggest
part of the state of the country
where gambling is rife. One of the biggest
ree of the type of gambling racketeer common
in the U.S. Could this be because in Britain's
gambling is legar! What is the better situation.
a lot of legal gambling and little racketeering,
or a strict leav against gambling, with lots of it
and racketeering to boot?

Pinch Hitting

Aurone for a "Nutty Baseball Pro

One Percips, of Peterborough way, passes along

"How could a team hit two singles, a double and three triples in one inning and fall to score a

Well, it is possible and here's how: The first two guys up triple but are out at the plate trying to stretch them into homers. The third man up triples and holds third. Fourth batter hits a high fly to short left field third. Fourth latter hits a high fiy to short left field and it is fort in the sun, dropping safely as the five reaches second base. The runner on third started in but reced back to hold it be lay when he thought it would be caught. The next man bests out a bund, the chap on third still holding. Finally a better laters ab to see near second base and it hits the maneer for the field out, but it's, an automatic hit for the betterant.

Oh, I see, he wasn't a heads-up ball player and didn'

Well, that means the coach must have been tak-ing a map too, ch?

This is getting complicated but we don't ever expect to see it happen so guess we'll "leave it lay" right there

They are talking about a funny one that hap-It seems there were two out, a man on third and a full 3-2 count on the batter. The runner on third tried to steal home with the big pitch.

The pitoher fired the ball toward the plain, the catcher grabbed it and targed the runner coming in. The umpire, unnamed, called the runner out but falled to call the pitch a strike or a ball.

The CBC has obtained exclusive Canadian TV and radio rights and will attempt to carry some of the more important games live. A schoolse will be released after the International for Bockey Federation discloser the results of the draw, early in 1962.

As usual, the Russian and Czechslovakian trams are expected to supply the longhest competition against the defending champion Canadians. After the U.S.'s unject of a couple of years ago, our southern neigh-bors will also bear watching.

A Lot of Bunk
Magistrate W. O. Langdon of Sault Ste.
Marie has ruled that campers cannot drink out-

doors.

His interpretation of the law may be absolutely correct. But this is not likely to make him popular around Queens' Park.

It is only a couple of summers ago that some officious busylood was responsible for a Kitchener man being charged, and convicted, of drinking beer in his backyard.

This led to quite a hubbub and the law was

It is now legal to drink beer on your

patio.

This change in the law, however, does not make it legal for campers to drink outside the tent, trailer or wessel in which they are restding, according to Magistrate Langdon's ruling.

The fact that a tent, trailer or vessel can be a very uncountertable place in which to drink, providing cramped quarters and oft-times a stuffy atmosphere, while a home often has a room or two kielaily suitled to bending an elbow while shooting the breese, is thus ignored by the law.

wane smooning the reverse, it thus ignored by the law. There'll be a hubbuh about this ruling, too, and Queen's Park doesn't like hubbuls, shout our nonsential liquer law.

Some may object that the eximpers in question were camped in a provincial park and that often tents are pitched close together in these parks, with children rulnings about, and that, to permit drinking in the open is to expose these children to possible interference by drunks. There are two answers to, this. Firstly, of the control of the co naturally.

Pogo Preaches

Pogo Preaches

Pogo, the little opossum beloved of the Indeedlesses who gives them an excuse for the turning to the fundies without retiring to a secret hidsways, is in the news again.

In the problem of TW-washching for their below the problem of TW-washching for their below to the conditions of the two problems of TW-washching for their below to the conditions.

children.

Walt Kelly, Pogo's creator, has produced a
booklet, described as a primer for parents, which
is being offered for sale by the U.S. Department
of Health and Welfare.

Now we have no doubt that Mr. Kelly, being rise man, has produced a wise book, full of orbit advice. helpful advice.

a wise man, has produced a wise book, full of helpful strice.

What we cannot understand is why the U.S. government abould feel obliged to print and sell this book, probably below cost, warning parents against such effects from unsupervised TV-watching as a matotic of monsters. St. government, though the produced to the contract of the produced to order TV stations to see the monstern packing?

Of course someholy would raise a cry about interference with free enterprise, or, even more abourd, free aposech. But there are only so many 'Mochannis and if anybody way free to use them the result 'would be chose, and more cross-patched pictures than there are plaids at a Highland results. ghland re-union. Since the government to decide who shall use these channels, it ars only reasonable that it should interest appears only reasonance that it anome interest itself in how they are used. If they are used in a way in which Pogo, alias the U.S. Govern-ment, does not approve, permission to use them in this fashion could be denied. But the FCC

in this rasmon coun so denied. But the FUE is as camera-shy as a movie star who has mis-laid her make-up lit.

So Fogo is a voice crying in the wilderness, carrying from the U.S. Government a warning against the effects of watching the type of TV shows which the U.S. Government permits to be

It would be funny if it were not rather

Not many sounds in life, and I include all urban and all rural sounds, exceed in interest a knock at the door.—Charles Lamb.

The arts of power and its minions are the same in all countries and in all ages. It marks its victim: denounces it; and excites the public odium and the public harted, to conceal its own abuses and encroachments— Henry Clay.

Humility is a virtue all preach, none practise; and yet everybody is content to hear.— John Seiden.

FURNITURE TAKES A BEATING FROM CONVENTIONAL GUEST

On long trips or short hands, Super Shell's energy-packed ingredie

EXTRA MILEAGE:

This 2½-mile stretch shows the extra mileage you can get in every 100 miles you drive-from just one of Super Shell's 9 ingredients for top performance.

A remarkable ingredient called Platformate increases the mileage you get from today's Super Shell.

Recent tests show that one cupful of Super Shell with Platformate takes a car 96 feet farther than the same amount of a non-Platformate gasoline. This works out to 21/2 bonus miles for every hundred. Here are the facts.

The one cupful test.

Super SHELL, with Platformate, was accurately measured into the fuel system of a conventional car. The car was started, accelerated and held at a constant 30 miles per hour until it ran out of gasoline.

Then, the same amount of gasoline without Platformate was poured in-and the test was run again. Same car—same driver—same test road.

In repeated tests, Shell engineers found that

Super Shell took the car an average of 96 feet

Super Sneu took one car car as assessed of farther per cupful.

That may not sound like much. But in 100 miles of driving, that 96 feet turns into 24 extra suiles. Platformate gets its strange name from the on re-forming process which Shell scientists use in making it.

High pressures and temperatures up to 1000 degrees literally tear petroleum spart and then reform it into super-energy components which release 7 per cent more energy than the finest

undred-octane aviation gasoline. You now know how one of Super Shell's nine ingredients helps to give your car top performance. Each of the others does an equally important job. Take a few minutes now to read what they are and what they do.

Ingredient #2 is TCP for power, mileage and longer plug life.

Super Shell now contains an even better version of this famous additive, it was originally developed for use in aviation gasoline.

TCPb additive can help restore power last to tion deposits; give up to 17 extra miles per tankful: and can make plugs last up to twice

TCP does this by neutralizing certain harmful effects of combustion deposits. It is scientifically formulated to alter those deposits which are a major cause of power loss."

Shell scientist pours Super Shell, with Platforms directly into fuel system of convertible for miles test. Car was then driven until it me out of gas. Sa procodure was followed with non-Platformate gas line. Pall report of test starts on the left.

Ingredient #3 is "cat-cracked"

gasoline for power with a purr.

This is petroleum that has actually oracled under 900-degree heat and catalytic action. Its heavier molecules have been shattered into livelier,

The result is a super-oceans ingredient that

makes your engine purr with power the m you put your foot down.

HOTE: "Cat-cracking" refers to the use of a catalyst -the mysterious substance that can alter mole-cules without changing itself.

Ingredient #4 is heavy alkanes for knock-free power at all speeds.

Some gasolines perform well enough when you're driving slowly, but cause knock and loss of power

* Super Shell behaves itself at all speeds. It contains heavy alkanes, a special high-octane ingredien that gives top performance whether you're in slow ating or cruising on a super-highway.

Ingredient #5 is anti-knock mix for extra resistance to knocks

You might think that two high-octane ingredients are enough for knock-free performance.

But Shell's scientists insist on adding a special anti-knock mix which is so effective that one toan per gallon can boost anti-knock rating

This mix has the tricky job of regulating comb tion so that Super Shell gives each piston a firm, even push-rather than a sharp blow which would

Ingredient #6 is butane for quick starts.

Butane is noted for quick starts in winter. But Shell's refining experts add a certain amount in summer too. The reason: volatile butane has antiknock value at high temperatures. So this wir start ingredient has sur to smooth out your car's performance both sun

Ingredient #7 is mixed pents for fast warm-ups.

Mixed pentanes are made by tearing gasoline ap much as you split kindling to start a log fire.

In this case, the "logs" are petrolesm's happine hydrocarbons. A special process transforms their molecules from slow-burning "logs" into the quicker-firing "kindling."

NET RESULT: Fast warm-up and top perfor in a hurry.

Ingredient #8 is an "anti-icer" to check stalling when temperatures drop.

Super Shell's formula is adjusted as often as eight times a year to best the weather. For exact ver the temperature is likely to be less the forty-five degrees, a carburetor anti-icer is added. Why add anti-icer at forty-five degrees? Because even then, frost can form in your carburetor just as it does in your refrigerator. It can choke your

Ingredient #9 is a gum preventive to keep carburetors clean inside.

Even the purest gasoline can form gum when stored. This can clog carburetors and foul auto-matic chokes. But, with Super Shell, you needn worry. A special gum preventive does the trick, It acts like a policeman controlling a mob. Regulates unstable elements to help keep them from clotting. Hence no gum proble

Test Super Shell for yourself.

Try Super Shell next time you fill up. You'll soon ar a difference in the way your engine runs.

That difference is top perform "Shell's Trademark for this unique ga by Shell Research. Patented 1955.

Pinch Hitting

lingue have been moved to Lee Angeles and commence their 1961-63 season in that baseball-

Jan Harsh Pepin, a former employee of this newspe-and also a hockey fan when she lived here, seof-ig a sports column written by a Jim Murray, of Los Angeles Times, the other day.

Murray commences his column: "This fall a new is going to come to Los Angeles—Murder-on-the.

The polite name for it is see hookey but there's collite way to play it. It's kind of a combination of ce Capades and The Unicombables.

"What the blades and the puck can't do, the hockey sick can. In fact, come to blade of it, for destructive proteintal, a hockey player could five a German solution proteintal and the player of the second solution and state, selega but, if he playe it tight, the player doesn't have to. For high-ticking an opponent, which is hockey's version of lowering a shill-slagh over a goy who have the selection of the player has been been a selection of the selection of the

read. "In thickey you'd be through if you didn't do it. If you are a goalle, you time reem get somebody to go read as in the corner for you. To be sure, they frown that you can get five minutes in the present you. To be you till somebody, you're out of bockey. Unless you can grove you didn't mean to do it. That's hard you prove you didn't mean to do it. That's hard you prove when looking book you're and you want y

Murray describes Blade coach George Agar as "an-of those Canadians who remember July as a mouth the side didn't go downhill as fast as it did the one the year."

He wispis up by myine "George droots when he are, the peel of nikholic latent areend Lee Angelan measure, to-ordinated, agreement. Treable is they're all on surfleavels Indicad of to skales. "You don't over have any loss on the greend down here, do year!" Agree acked wishthly. "Only, I told him, "when you spill your marting on the policy."

Part-Time Workers

Part-I ime Workers
Unetpiloymont declined only slightly between mid-June and mid-July. We are told that 190,000 sternegs job-sectors entered the labor market with the state of the school vacation period. That the number of unemployed declined at all under these circumstances might seem surprising. However, the arrival on the labor market of former students was partly off-see we are told, "by the temporary withdraway and the state of a significant number of the state of

Note the word "temporary?" What does that mean? In many cases it means that these married women have quit their jobs in order to enjoy a vacation.

Now there is no reason in the world why the ladies should not retire from working during the summer months if they want to, and if they can afford to do so. The fact that so many do, indeed, "withdraw from the labor force" at this time shows that they can afford it. They think that it is more important to accompany their husbands on his annual holidays, or to take the kids out to the cottage, than to continue to augment the family income. We suspect that they are right.

For heaven's sakes, though, two things ought to be self-evident. One is that we ought not to be unfully alarmed if they do not find a new job right after the conclusion of the hollnew job right after the conclusion of the holi-days and instead join the ranks of the "unemployed" for a while. This is not the type of "unemployment" which does much harm to the ration. Secondly, all women are not housest, any more than are all men. The honest ones quit their jobs and withdraw from the labor or "idea off" and then draw unemplotication or "idea off" and then draw unemplotication. quit bare you was a contrive to get "Irrea force: The dishonest ones contrive to get "Irrea force: The dishonest ones contrive to get "laid off" and then draw unemployment insurance while basking at the beach or enjoying "cook-outs" on the home patto. Something cought to be done about this. California has "community property" for married couples. Could we note, perhaps, have some provision for Could we note, perhaps, have some provision for Could we note, perhaps, the some provision financiance based on the couples of the perhaps the distributions of the couples of the fits until this "community income" fell below a certain level?

Drink up and Learn

Does baby's mug have a picture on the bot-tom, on the inside? And do you say: "Come on pet, drink up and see the nice pussy cat."

If so, you will know where a Canadian brew-

ery got the idea for its latest atvertising gag. It is printing questions and answers "to lots of things Canadian" on the inside of the labels on beer bottles. We are all invited to drink up and

Hearn.—
We doubt very much whether this will greatly increase the consumption of this particular brand ober. Somehow we never expect to hear a conversation like this: "How about anicher" "No. I don't think so, thank you." "But son't you want to learn something more about Canada"." On, rencious sakes alive, I forgot Canada?" "Oh, gracious sakes alire, I forgot about those questions and answers. I'm just dying to see some more of them. I really don't want any more beer, you know, but I'd do so want to learn more about Canada. Of course I'll have another bottle, in fact bêtter make it three. My thirst for knowledge is very strong tonight."

If, however, we should prove to be, a bad prophet, "and the advertising boys abould be proven to have a deep linsight into human nature, we wonder whether this method "ould be adapted to an even more useful purpose. Could

adapted to an even more useful purpose. Could be adapted to an even more useful purpose. Could school examination questions be printed on the inside of soft drink bottles? Obviously a youngster who is energetic enough to guip his way through a dozen cokes would have a greater chance of getting a good mark than some sissy who stopped at one or two, since he would have more questions to answer. But should there not be sogies reward for abdominal, as well as men-tal, capacity?

tal, capacity?
Teichers, required to mark papers, might lake Ji/amies If they were treated in childilize fashing, and required to down a doesn cream sodas fedore having the marking schedule presented to them. But perhaps the brewing company would co-operate. This way, the original objective of the derice might, hided, be achieved.

ed.

We have been experimenting with the idea
of requiring reporters to paste their copy, typewritten side down, around rum bottles, but find
thish hash a tennency to undooty delay thuh neshesshary edting.

An educated man stands, as it were in the midst of a boundless arsenal and magazine, filled with all the weapons and engines which man's still has been able to devise from the earliest time.—Thomas Carlyle.

Hoodlums Inevitable

because the gap between physical minurity and the socially convenient age for marriage has widened. They are physically mature at fourteen, but must still wait for half their life span to elspee again be-fore they can conveniently marry.

Only three things can keep young people continent: mal-nutrition, overwork, and the fear of hell. We have been at

pains to remove all three.

They steal bocause they are stolen from. Here and now, our government is consciously and purposely increasing the distance between rich and poor. indistribution to remain all distance between rich and poor. Surtax goes down, national insurance contributions go up.

PENNY-PINCHER

Envoy's low, low initial price means that avoys stow, low initial price means that savings begin as soon as you buy? But that's only the start... Envoy's perform-ance, proven over millions of miles on Canadian highways, ensures economi-cal operation under any conditions. Then there's catoperation under any of value—your assurance not only of reliability and dependability, but of parts and service from coast to coast.

Any way you look at it, Envoy gives you more—more prestige-building style, more attractive features, more car! And there's room for five big adults in every

Pinch Hitting

A Department of Lands and Forests bulletin start-ad one of its releases the other day like this "Camp-ing in Outarie's many provincial parks has increased immensely in the past few years".

Camping, in the last few years, has become just the most popular summer pastitue in the pro-. A few years back, a car pulling a leaded trailer, th tests, sleeping bags, etc. piled on top was a bit addity.

swims have demands above. This widespread areas is in a sharp frame to the public recreational facilities of this kind lakels in many European countries. Studies by Octatro Indian Studies and Studies of the Studies of Catalon, pp. Azaltani Deputy Minister, and A. B. Wheatiny, or of the Parks Eranch, in Jahr & dones European neiter sactier this year indicated that recreational use tensel land in oth an advanced as in Otatrio.

"Their parts are not available for use by a larger proportion of the population. Hunting and fishing in most countries are vestified to a small segment of the population," Mr. Speaser observed after stadying such countries as England, Pranco, Germany, Switzerland, Sweden and Plaked.

Some camping is permitted in British Forestry Com-tion forests, but little is provided in the way of feel-ing. The nature are known as the Lamberger, Helder, Hamburg, has some festures of a day-use park, and in feature of a widerness area on cantuc conservience. The public are permitted to wait our control of the to control the control of the control of the control of y a larger mander of people, would do to the loca-

THE ONTARIO INTELLIGENCER

Straight Thinkers

"Aims of Industry" reports that a third of a group of 600 British girls have an inner desire to kill off their fature husbands.

to kill off, their Rifure husbands.
This could be the starting point of a major excursion in the gentle art of viewing with aiarn, but closer examination reveals a flaw in the hypothesis. A research group from London's Elirichech College invided 600 girls, aged 14 to 13, to write essays of what they imagined their lively would be like many years in the future. A third of them imagined themselves as widors. "Most regarded the man's usefulness finished when he had provided them with a home and children," we are told.

Now it is surely permissible to get rid of a useless man when writing an essay, but that does not mean that these girls would actually kill their husbands, or even want to do so, in real life.

their husbands, or even want to do so, in real life.

All the imaginary deaths revealed was an praiseworthy tendency to be tidy around the house. Why clutter up the place with a man when he really isn't needed?

We find immensely encouraging this clear evidence of the ability to think straight on the part of one grir out of three, in the face of all the mush dished out by movies and loke become

much dished out by movies and jube boxes.

For, of course, a man has only two primary purposes —to provide women with children and children with a home. (The girls got 'things slightly twisted; they thought the home was being provided for them: rather than for the children.) Once a man has done that, his franction is made to the children. Once a man has done that, his franction is made to the children. Once a man has done that his formed to the children. Once a man has done that his formed to the children. Once a man has done that his formed to the children in the children in the children in the children and the children are conceived. (Of course, if all men promptly died upon the fulfilliment of their biological function, things would be a bit enharmang, since it is difficult to get a life. Insurance, but the is not the concein of the individual fermale and the girls did well to disregard the point.)

Some protesting males may suggest that

points more protecting males may suggest that there is really no reason why they should not be graphed equal tipse with the gentler sear and that, if either Mom or Fop has to be eliminated as uselies once the children are born, as good sport would be prepared to toss for it. Aside all together from the problem of whether women understand this male concept of sportsmanship, there is an irreducible case against the male of the species. When it comes against the male of the species when it can be long ago ability of the species when the same to the species when the same to the species when the same but has men will not do. Who runs the home and school associations? Women. At home, of course, women men will not do. Who runs the home and school associations? Women. At home, of course, women are customarily in full command. If the men do help with their children, it is under direction. Junior has been disobedient and must be punished. Six needs help with her homework. And, oh yes, Mary called about the Scouts and I told her you would be delighted to be assistant. Scout

The British girls evidently think they can get along without this assistance and we suggest that the better part of valor, not to mention the

better part of common sense, is not to argue with them but to hope they are right. them but to hope they are right.

There may be some men who feel rather put out at the revelation that young girls, today do There may be some men who feel rather put out at the revealation that young girls, foday do not think much of men as companions a dozen good once think much of men as companions a dozen gard as "many years in the telure". But men ought not to be surprised at this low opinion of their identic for comforting and entertaining. Men have never been very companionable for women. In the old-days they were sawy all day chasing dinosaurs — and frequently away half so they probably said. Later on there was a little listings called chivalry, which sent them wandering around looking for madiens in distress for resone from dragons, disregarding matricus, and the same way the same short of the same way the same short of the same was the probable of the same way the same was the pub which had to be longuity supported, lest the innikeeper go bankrupt and fail to produce the proper accommodation for that age's equivalent of the tourist trade. When this activity became identified with a fas, so that pulse equivalent of the tourist trade. When this activity became identified with is, no that pubswere either uncomfortable or invaded by women,
rifan became interested in improving the community and joined a heat of worthwhite organirations like Bodary, Kwanis, Masons, Odd Fellows, Oyangemen, Black Knights, Knights of Columbus, Chamber of Commerce, Lions, Eliza, Moose, Junior Chamber of Commerce and Legiou, all of which managed is and a lowcacejt on ladder light? I com hight a year worth the trouble of heaping a man around the house?

Though there is a tacit disapproval of extreme publicity stants (a deb who has allowed herself to be photographed wearing a bikini raw first that

Should Revive Reading Says Columnist

By SEDNEY, HARRIS
Once in every three of four
years I engage in a touch of
self-advertisement. That is when
I announce that a new book of
mine is being published.
"Last Things First" is the
name of the laster collection
columns in book form, and it
is now available in booklobs;
that is, if you can find a bookshop.

shop.

It shocked and surprised me a few pears ago when I learned thin the United States has more blacksmith shope in as shown as wholly without one. And the bookshops that genant unually depend on greeting card sales for their basic income.

Despite the fact that nearly a card of the should be shown as well as the same and the should be should August 30th, 1931

2 BIG BELLEVILLE USED CAR

LOTS 31-45 Station Street Foxboro Road

OPEN THURSDAY-AUG. 31 'TIL MIDNIGHT

"THE USED CAR SHOPPING CENTRE"

Chevrolet - Envoy - Corvair - Oldsmobile - Cadillac - Chevrolet Trucks 21-45 STATION STREET FOXBORO ROAD (At Cloverleaf) Day: WO 8-8787 - Night: WO 8-6769 Day: WO 8-6767 - Night: WO 8-6760

Somebody remarked the other day, while discus-the proceeding Belleville and District Softball, me Signle, that "everybody should be happy,"

"RCAF Figure are playing Senley "B" playdowns, Fig-walts are in the Intermediate "B" playdowns and Joyce and Cobours are meeting such other in our own local play-ofts," added this very observant chap.

It segme somewhere along the lim he furget line Habonic, but then that's the sad part about sport, there always has in he a loost.

Meanwhile, the point of interest right now is the up-coming best-of-seven final series for the Bill Ott Trophy, and the league crown, between Jayce Real Estafe and Co-courg Merchants.

The series gets under way have Thursday night under the lights at the Fairntennes at 8,18. The second game will be played in Cobegry Spinday night, size at 2.15.

Plans now call for three games next week, Tuesday, raday and Saturday, but there could be some changes

Thursday's opener here should be a dandy as be

Jayon iralied the Fivers throughout their semi-final series, as a matter of fact writed until the dying subsets of the seventh passe helese pulling out the decision. That's sard on the heart and the Hillet-Nor-gan-Show even don't want to go through that again.

Manager Bill Show said yesterday that his club would throw in the best it had to try and get a jump on the Mer-chants tomogrow alche. They well know just how tough "Sleepy" Dawe and his mates can be up on the shore of Lake Ontiles.

filnce entering the league a few years back, the Cebeurg club has made it a habit to fight its way into the loop finals. And they always make it plenty tough on their opposings right down to the wire.

The Merchants are a team that can't be under-rated, hey proved to the Picton Walts in their semi-final

We look for a long, hard-fought series with a roat deal depending on the strong right arms of Jim laws and Bobby Hull,

Eisewhere tomorrow night, a little earlier, there will be a mightly hig hall game sping on at the CNRA Park, when the Booth 175 try to wrap up the OASA Zone Four Midget "A" championship.

Our man Frank Oris tells us that the Woodviews will be mightly fough back here Thursday evening. They how a flarary Hobbs doing their pitchigh; a tail, strong productor well honover to the Booth buyers. He has pitched segment them in other years, beating them ore than one, so the late knew what they, are up

Hobbs buried juvenile ball last year but dropped back to midget this season. (He's young enough to do ii). He struck out 13 and walked only two the other night so ap-parently he is just as sharp as ever.

Bobby Boyle will likely too the rubber for the

Over 200 fans took in that opening same in Osbawa and Culhane is hoping that local fans will give his youngsters an equal smount of support at the gate.

It's good ball so don't forget the game time and place, six o'clock at the CNRA Park.

TAG-YEAM ACTION

Frank "Farmer-Boy" Townsend, who appeared here earlier this season both in single and team matches, will return to action at Memorial Arena this Friday night, with an aid Belleville favorite for a parlner.

Farmer Ray Leagus up with the towering Lord Athel Laylon, he of the dyadiy judo chop, to take on those bourded villating from Russia, Ivan and Karpl Kalmikoff.

This tweest-three falls affair will headline an fall-star is that gets under way at nine o'cleck.

Townsend and Larlen shepid make quite a power-ful (ease but no tearther than will be necessary to cone with the Kalimhoff Farberr, This will be a tar-team match but fire will get year ten that anywhere treas three to fire men (including the referee) will be in the ring meet of the pight,

The 340-pound Man-Mountain Campbell, another rd, tackles Tony "Prince" Nero in the second bout. re'll be action in this one.

Gino Marello meets Pat Flanagan in the opener

. . . The Belleville Kenmors, preparing for their opening ound of QBA Juniof "A" play against Feterboreugh this weekend, will play host to the South Hastings League All-sters at he, Fairprounds here tonight in an 5.15 embilion

Do Not Expect to Much

ow 40,000,000 annuary snown be ampire of on a reasonably good job of financing Canada's representatives at various games, meets and tournaments — which is evidently the purpose to which an assortment of chairmen, presidents, prexies and poolshahs of various athletic as-

sociations expect the money to be put.

We suggest, though, that it would be un-reasonable to suppose that such a comparatively meagre sum could do much to improve the re-reational facilities for many thousands of Cana-dians, let alone to improve the national standard

neesgre sum could do much to improve the recrestional facilities for many thousands of Canadians, let alone to improve the national standard
of physical fittiess.

It is, of course, easy to see of what stuff will
be spun dreams that all this can be achieved
with a mere free million dollars. Encourage
Canadian participation in interest in the sum of the sum

trick ankle, sear tissue from éaste cuts, busteringers, partial plates and what have you, there is a price to be paid for every pleasure and were given our bodies to wear that is desired, But If it is physical fitness that is desired, probably the best results could be obtained warring by by using the five numliant to encourage the school or work, rather than riding in school or work, rather than riding in school

As of care, which a case is the property of the care o

A Long Wait

Newtoundland hopes that, within a week or so, all the forest fires in that province will be

Monday the fires were all under control—
thanks largely to the weather.
One cannot help wondering, though, whether the arrival of 1,000 soldiers, to aid 1,500 realer the arrival of 1,000 soldiers, to aid 1,500 realer tills arrival of 1,000 soldiers, to ald 1,500 red, dents of the province in fighting the fires, may not have been an important factor in checking the filmes. If the fire-fighting force had not been sugmented in this fashion, would it have been salie to take full advantage of the oppor-

been aggmented in this rankin, would it have been able to take full advantage of the opportunity provided by rathy weather?

INFORMATION

about the

ONTARIO RETAIL SALES TAX

The following basic information about the 3% Retail Sales Tax, effective September 1st, will be of interest to every resident of Ontario.

Why the Sales Tax was introduced

Ontario is experiencing the most dynamic growth in its

As a result, the demands on the provincial treas nue to grow at an unprecedented rate. For example, continue to grow at an unprecedented rate. For example, during the next five years we must build the equivalent of one thousand schools large enough for 500 pupils each. This meant that provincial grants to school must be greatly increased in the years immediately abead, or municipalities will be faced with repipiling mill rate, or provide basic educational facilities. Hospitals, highways of the provide schools will be faced with the property of the provide schools within good-must sale he sensite granted.

provide basic educational facilities. Hospitals, highways and other public works must also be greatly expanded to meet the needs of our rapidly increasing population. Your Province must increase its revenues by about \$150 million annually to pay for these vial projects. After considering every method available to the Province? of raising money, your representative ast Queen's Park decided that our vast financial needs could not be met out of present sources of revenue. It was agreed that The Retail Sales Tax Act was the fairest and most practical way for residents of Ontario to contribute to the cost of their schools, hospitals and other esse

Before drawing up the Ontario Retail Sales Tax Act, our government closely studied the retail sales tax of seven other Canadian provinces and many states of the U.S.A. The Ontario Retail Sales Tax Act has the broadest exemptions of any of these retail sales taxes.
Only two other provinces have a tax rate as low as Ontario.

Collection of Tax

Those who regularly sell goods as a normal part of their business must apply to be registered as vendors. Those who have applied are now receiving their permits.

They will collect 3% tax on the price of goods sold to

They will collect 3% tax on the price of goods som to the ultimate consumer. The tax will be collected only once. Thus, a registered wholesaler will purchase goods for resale tax free from the manufacturer. He in turn will sell to the retailer on a tax free basis. Then the retailer will collect the tax when he sells to the consumer.

Major Consumer Exemptions

Most of the day-to-day necessities of life are free of sales tax. Food, prescribed drugs and medical sup-plies, and children's clothing are all tax exempt. Heating pues, and camoren's containg are all tax exempt. Heating fuel, electricity and gasoline are exempt. No tax applies on magazines and books are exempt. No tax applies on restaurant meals charged separately at \$1.50 or less. Each sale of less than 17¢ is exempt. These and many other exemptions are discussed in detail on special cards
that are now being mailed to retailers and other vandors. ssed in detail on special cards

Homes Not Taxable

Houses and other buildings are real property and are not subject to tax under this Act. The building connot subject to tax under this Act. The building con-tractor pays tax on materials incorporated into the home or other structure but no tax is payable on the labour that constitutes a large part of the total price of a home. If furnishings such as draperies, stoves and refriger-ators are sold with a home, tax is payable on the fair value of such furnishings.

Services Not Taxable

Only items of merchandise that are moveable, and tele-Only terms of merchanone that are involved, and they phone services, except long distance calls, are subject to the tax. Those persons selling "services," such as barbers, beauty shops, launderers and dry cleaners, do not collect beauty shops, numbered as not all the state of the state substantial quantities of parts or material, the entire bill will be taxable unless the materials are shown as a separate charge from the labour.

When an individual sells goods privately, the transaction is a "casual" sale. In such cases the purchaser and not the seller of bisable goods is responsible to report the purchase and gay the sales tax on the purchase price to the Retail Sales Tax Branch, Office of the Comptroller

Instalment Purchases

Sales tax is due on the total price when the sale is made even though payments may continue over a long period of time. Finance charges are also taxable unless quoted nd itemized separately.

The actual selling price minus the amount of the trade-in allowance is the amount upon which sales tax is payable.

Farmers will be exempt from tax on most equipment, on agricultural seeds and feeds, on drugs and medicines for tivestock and on many other con in the business of farming.

Exports and Imports

Goods exported from Ontario are not taxable since the tax is applicable only to goods used in Ontario. No tax is payable under this Act by manufacturers on goods they purchase for use in the production of goods for sale. Thus, their odupetitive position in the export market is maintained without change after the introduction of

Goods imported into Ontario are taxable since they are purchased for use in Ontario. The purchaser of the imported goods is subject to the same tax he would have to pay to an Ontario Vendor if he purchased the goods

Rental of Moveable Property

The person who acquires possession of moveable property by paying a rental price for its use is regarded as a purchaser of such property under the Act and tax is payable by him on the rental price paid.

Registered vendors are receiving special cards that list exempt and toxable goods. Each explains how the Retail Sales Tax applies to each particular type of business. Additional information is available from the District Sales Tax Office serving your community.

Pinch Hitting

The major league premant races, which along about this time usually turn mild-mannered, soft-species gridners into with-upod, raving maniace, are cortainly no according the year.

The little wife who expects to make a trip "down to nother," this weakmed had better be sure that the our radio is in partest working condition. And then, she may but get a odd stare, as she makes the sur-gustos, while hubby sileks on the one-cycl measter and pears himself a long, tall cool and.

But, sitch for pitch, the series between the Tigers and okees, that opens in New York tomorrow, will have re attention than any other in a long, long time.

Detroit is a haseball-mad town. The Tigers have rounted to give their fans a pennant contender for any years but this is the first time, that the club has ayed up to expectations this far along in the sche-inged up to expectations this far along in the sche-

Many Yankee supporters laughed at the Tigers' early-son play which had them perched atop the league ading for some time.

hading for some line.

Trus, a Tanka hard moved into first place but not some large the Years but down. They have been not some large the Years been not similar to the Yanka that they have been not similar to the Yanka that they have been not not been fine leaves them. At best, those earlier laughe nor more charkes these days and fort about as read on the place that they had been the boss plus your ears back they had been they had been the boss plus your ears back they had been they had

Another Tiger, one Norm Cash, is having a great year age-wise, hovering around the 385 mark most of the on. While Mickey post the second with the second of the control of the second with the second of the control of the second with the second of the second with the second of the second with the second of the

It's protty much the same story in the picking partment too. The Yanks' Whitey Ford is having a mendous year, owning h 22.2 trecord when this was litten, by far the best is the majors. This is Ford's at year to win 38 and he may come close to 30.

Lary leads both loops in complete games and absevers a territic won and lest record of 18-7. A week age yesterday, Lary threw just 27 pitches in going the serie for the 18th time this scases. Both figures speal

No matter how you look at it, the individual stars of oth teams can't lose. If none of them hit a home run for he rest of the season, or win a game on the mound, they are already compiled outstanding marks for one season.

However, it's not the same for the teams as a w

It could be all but ever before the same teams set, for the final time this season, in Detroit for a programs series on the weekend of September 16.

Den't bet on that though, we expect to see this go form to the wire.
